Dear Madhabi,

It is an honor for me to extend to you the designation of Professor Emerita of Measurement, Evaluation, and Education at Teachers College, Columbia University, effective September 1, 2022. All retired professors retain library privileges at Teachers College and at Columbia University. Also, we have requested that your email privileges be continued.

You have been an inspiration to your colleagues and students for so many years. It has been a pleasure to know you and I know that you will be missed by the College, especially your students and faculty colleagues. I wish you continued success, and trust there will be many opportunities to remain connected.

Best regards,
