Summary of Evaluation Process

Background:

Throughout the year, prospective students, students, and alumni approach Teachers College Career Services (TCCS) with extensive questions about the career paths of previous graduates. For some, the question is an attempt to see how others have translated an academic degree into a career. For others, the concern is regarding salary ranges achieved after graduation. To address this reoccurring need to know what types of positions and salaries graduates receive, TCCS developed a survey to gather information from recent graduates about their careers and employment status. (A sample of the survey is available on our website.)

Methodology:

Teachers College Career Services (TCCS) obtained a comprehensive list of 2006 graduates through the Teachers College Registrar. Using the contacts on this list, TCCS reached out to all 1,852 graduates and asked them to complete an on-line or hard copy survey. Surveys were distributed during ticket distribution for graduation, through monthly emails, and two hard copy mailings. TCCS staff also dedicated several evenings and weekend mornings to calling the graduates in order to collect data.

In addition to general demographic information, graduates were asked to report their employment status. These options included: continuing current job; accepted job offer recently; pursuing additional degree, continuing job search; starting own business; evaluating offers; and taking time off/not job searching. If alumni had accepted a job offer recently and/or were continuing their current job they were prompted to provide information about their position title, employer and salary range.

Results:

A total of 1,221 graduates completed the survey, representing 66% of the graduating class. Ten graduates declined to complete the survey. A detailed breakdown by degree, department, academic program and salary ranges are included in this comprehensive report.

Implications and Recommendations:

The data collected from this survey has proven helpful not only to the TCCS staff, but also to other administrative offices across the college, including (but not limited to) Admission, Alumni Relations, Institutional Studies and Accreditation and Assessment. TCCS staff also intends to use this information as part of their faculty outreach initiatives. Faculty can learn of graduates' career endeavors after TC and will be able to garner a sense of their students' career needs. Together, TCCS and faculty (or academic departments) can plan future programs, workshops, employer development and other events to address students' ever-changing career needs.

Summary of Evaluation Process

Questions?:

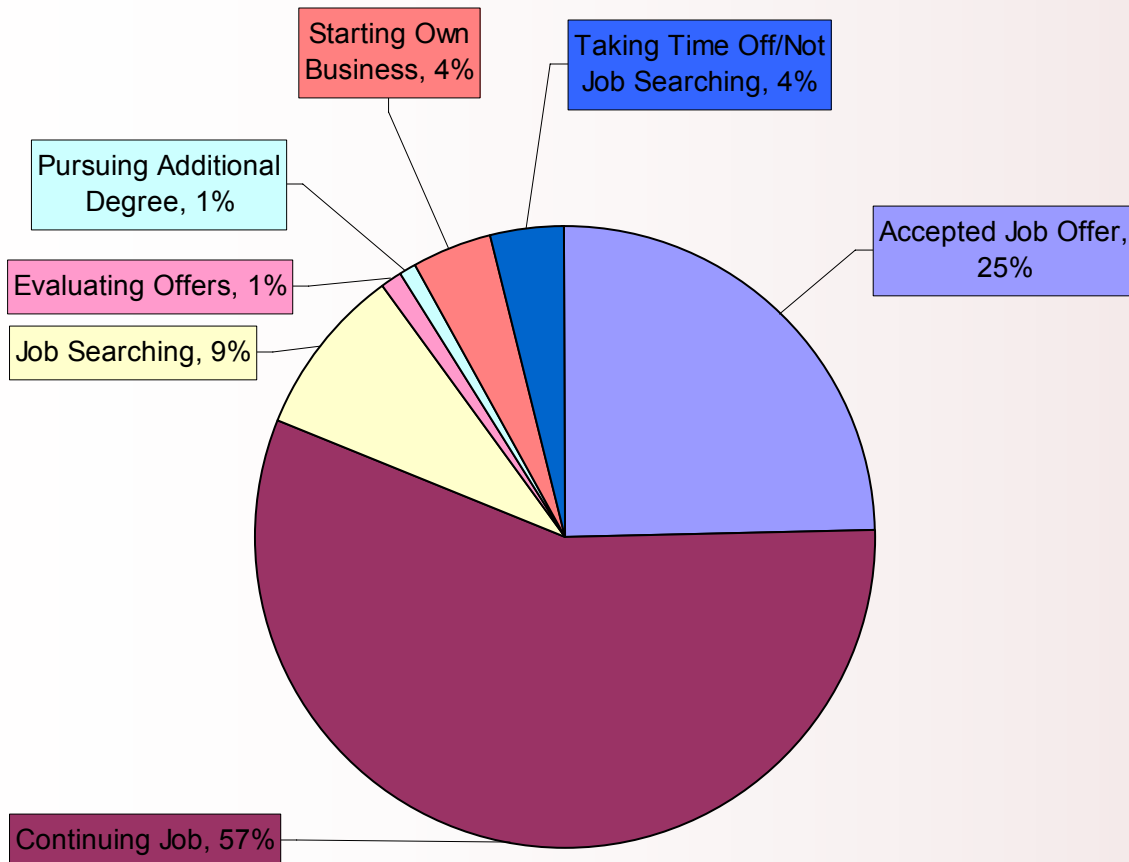

For questions or concerns regarding the methodology or results of this survey contact Teachers College Career Services at 212.678.3140 or careerservices@tc.edu.
