

The Arts in Education Evaluation Study

This collaboration with the Program in Art and Art Education at Teachers College was an assessment of the Annual National Family Arts Competition of Chesebrough-Pond's Inc., which used images from the collection of the National Gallery of Art's permanent collection and gave cash prizes to high school students and to participating schools. The assessment included program design, program contexts, content analysis of 1980 through 1986 Competition Kits, professional critiques of 1986 Competition Kits, a survey of program participants, site visits, and research into corporate giving to arts education.
