

Artisthelp: The Artist's Guide to Work-Related, Human and Social Services

This guide includes representative listings of resources in health care, financial and legal expertise from over 120 U.S. cities in fifty states and the District of Columbia. It includes a section on national organizations and artists' unions with a list of benefits and services, fees, geographic area served, and eligibility requirements. It is then organized by state and city, with a profile and organizations at the state level, and, at the city level, an overview of population, artist population, form of government and an arts-related profile, and relevant organizations in each city.
