# THE DEPARTMENT OF ARTS & HUMANITIES

---

## Our Mission

The Department of Arts and Humanities is dedicated to the study of various academic and professional disciplines in an educational context. The Department's mission is two-fold: To further knowledge and learning in specific fields and to explore the purposes, practices, and processes of education both within—and across—disciplines in the Arts and Humanities.

Within the Department, individual programs preserve their own disciplinary rigor while expanding modes of inquiry, discovery, and creativity across disciplines and diverse societies and cultures. The Department is committed to understanding culture as broad and varied processes—fundamental human activities involving various modes of thinking and expression through which meaning is constructed and historically transmitted.

The Department views the study of education as broad and vital. Here, intellectual and creative ideas and practices extend beyond the traditional concerns of schooling. Thus, each program shares a concern with the learner's construction of knowledge, the art and methods of teaching, the realities of the contemporary classroom, the relationship of schools to their communities, and the underlying philosophies of school reform.

In each of the programs that prepare teachers for positions in schools and universities, there is a commitment to the education of reflective practitioners, the integration of theory and improvement of learning, as well as research and practice in the students' chosen fields of study.

Faculty share the view that informed, imaginative and critical thinking enables scholars and educators to actively shape cultural concepts of learning through education. With this in mind, the programs—both separately and together—offer students the skills and knowledge needed to thrive and assume leadership in today's changing cultural and educational environment.

If you plan to work in a state other than New York, Teachers College has not made a determination if our programs meet the educational requirements for certification or professional licensure in any other state, Washington DC or Puerto Rico. We recommend that you review the state's licensing board or teacher certification website for that state's qualifications. The Office of Teacher Education will complete any necessary forms and/or letters for out-of-state certification on the completion of your approved teacher preparation program.

# APPLIED LINGUISTICS AND THE TEACHING OF ENGLISH TO SPEAKERS OF OTHER LANGUAGES

Department of Arts & Humanities

---

## Program Description

The Applied Linguistics (AL) and Teaching English to Speakers of Other Languages (TESOL) Program provides students with a solid foundation of knowledge to formulate, examine and resolve pedagogical and research questions related to language, language use, second language pedagogy, second language acquisition, second language assessment, language and technology, and TESOL adult and PK-12 education. The AL and TESOL Program helps students develop strategies, grounded in theory, research, and practice, to teach second and foreign languages; develop curricula; and assess language performance in a wide variety of national and international contexts.

Areas of study include:

- Linguistic analysis
- Language use
- Second language education
- Language teacher education
- Second language literacy
- Second language acquisition
- Second language assessment
- Language and technology (corpus and computational linguistics; computer-assisted language learning and assessment; AI and machine learning applications)

More specifically, the major in Applied Linguistics (AL) provides students with a solid foundation for defining and resolving problems related to the nature of language, how it is used in educational and naturalistic contexts, and how it is taught, learned, and assessed, while the major in TESOL provides

students with a solid foundation in the English language so educational questions related to the teaching, learning, and assessment of English as a second or foreign language (ESL/EFL) may be understood, formulated, examined, and resolved.

Graduates from the AL and TESOL Program typically teach ESL or EFL in elementary or secondary schools, in colleges or universities, in language schools or institutes in the United States or abroad, or in businesses or international organizations. Others work for assessment companies such as ETS, Cambridge ESOL, or Pearson; for publishers; or for technology companies that produce ESL/EFL products. Still others work as language program administrators in educational settings. Finally, many graduates work as applied linguists or TESOL faculty or researchers in colleges and universities around the world.

As New York City offers one of the most diverse settings in the world for teaching ESL, the program collaborates with a number of schools in the city to provide students with opportunities to teach or do research. In addition, the AL and TESOL program sponsors the Community Language Program (CLP), a program to teach ESL and foreign languages to adults. The CLP serves as an on-site language education lab in which students enrolled in the AL and TESOL program teach the courses, help administer the program, supervise other teachers, run the placement exam, and conduct empirical inquiry. Some students have the opportunity to teach in the CLP's TESOL Certificate Program or in the Language Program Management Certificate Program. For more information about the CLP, see the website at <http://www.tc.columbia.edu/communitylanguage/>.

## TESOL: Teaching of English to Speakers of Other Languages (Peace Corps Fellows)

Master of Arts | Transitional B Cert: TESOL Pre-K-12

**Points/Credits:** 32 **Entry Terms:** Summer Only **Certification:**

NY State Transitional B: English to Speakers of Other Languages (TESOL) Pre-K-12

### Degree Requirements

We offer a 32-point Master of Arts degree in TESOL leading toward PK-12 Transitional B Certification. The program is designed for Returned Peace Corps Volunteers to transition into public school classrooms. Successful completion of this program of study leads to the M.A. degree and recommendation for New York State Initial Certification (grades PK-12). Students in this program balance full-time teaching in a NYCDOE school and graduate school coursework. They are supported in their program and teaching by the TESOL Program and the Peace Corps Fellows Program. Through comprehensive and innovative course work, hands-on experiences in New York City public schools, and research projects, Fellows explore the teaching and learning of English to PK-12 speakers of other languages.

In order to complete all degree requirements successfully, this program typically demands a minimum of two years, including summers. The first summer in the program is intensive coursework and fieldwork to prepare students for their first year of teaching.

Candidates applying for initial certification in New York will be required to fulfill NYSED's Content Core requirements for initial certification (see <https://www.tc.columbia.edu/office-of-teacher-education/students/certification-requirements/initial-certification/>). They will also be required to take and pass all required New York State exams for initial certification. For more information, please visit our OTE website: <https://www.tc.columbia.edu/office-of-teacher-education/students/certification-requirements/certification-exams/>

Dual Certification NY State Initial: English to Speakers of Other Languages (TESOL) Pre-K-12 /  
and NY State Initial: Teaching of English (7-12)

## Degree Requirements

The dual certification MA in English Education and TESOL (Teaching English to Speakers of Other Languages) is an innovative new program that responds to a growing need for dually certified teachers. The program leads to a PK-12 Initial New York State Teacher Certification in TESOL and a secondary certification (7-12) in English Education. Students complete 45-46 credits of coursework over two academic years, including two semesters (Fall and Spring) of student teaching.

Students work with leading researchers and practitioners in the fields of English Education and TESOL through comprehensive and innovative coursework and research projects. In addition, students are mentored by experienced teachers during their two semesters of student teaching in the New York City school system. While students will graduate with two separate certifications, the purpose of the dual certification program is to explore the intersections between the teaching of English and TESOL; we examine specifically both the unique challenges and opportunities of teaching secondary English and TESOL simultaneously.

Candidates applying for initial certification in New York will be required to fulfill NYSED's Content Core requirements for initial certification (see <https://www.tc.columbia.edu/office-of-teacher-education/students/certification-requirements/initial-certification/>). They will also be required to take and pass all required New York State exams for initial certification. For more information, please visit our Office of Teacher Education (OTE) website:

<https://www.tc.columbia.edu/office-of-teacher-education/students/certification-requirements/certification-exams/>

All courses must be passed with a grade of B- or above to count toward Initial New York State Certification.

- A&HC 4750 Supervised Teaching Phase I 3 credits
- A&HC 4751 Supervised Teaching Phase II 3 credits

### Foundations/Breadth Courses (6-7 points)

Foundations/breadth courses are intended to broaden students' knowledge of the history of education, philosophies of education, and educational issues and practices beyond their particular area of concentration. All students must take at least 6 points of such courses (courses in Teachers College not designated "A&HE," "A&HL" or "A&HC") in close consultation with their advisors and with the TC Office of Teacher Education.

Foundations/breadth credits must be used to meet the New York State requirements within the following categories:\*

- Special Education (3)
- History/Philosophy of Education (2-3)
- Human Development/Psychology (2-3)

Each term, the program will issue a list of courses across the college offered within each of the three categories above from which students may choose. These courses may be taken as pass/fail.

\*If any of these requirements has been met through previous college-level coursework, the students would adjust points within the other two courses accordingly for a total of no fewer than 6 points. Students will make these adjustments in consultation with their advisor.

### Exit Project (1 point):

- A&HE 5590 Master's Seminar 1 credit

Students complete a Master's project written on a research topic arising from course-related interests and subject to approval by their assigned advisor. This project can be a review of literature on a scholarly topic or a teacher inquiry project. It is normally completed during the penultimate semester of study. The Master's Seminar supports the completion of this project.

### Student Teaching

Students in the 45-46 point TESOL/Teaching of English program have two separate semesters of student teaching. As specified by New York State in the requirements for 7-12 ELA Initial Certification, one of these experiences is in a middle school and the other is in a high school. Most placements are made in urban public schools in New York City. Commuting to one of the outer boroughs should be expected. In each semester, student teachers will be placed in classrooms in which both TESOL and English Language Arts are taught.

Student teaching experiences differ by semester. In the first (Phase 1) semester, the cooperating teacher has primary responsibility for designing the curriculum. While students do not have the major responsibility for designing or organizing the course of instruction, they are active participants in the classroom and school communities.

Although the Phase 1 experience varies, students are engaged in observation, group work with students, conferencing, and teaching. Later, toward the end of the Phase 1 experience, at a time mutually agreeable to both cooperating teacher and student teacher, the student teacher is expected to assume full responsibility for one class.

During Phase 2 of student teaching, student teachers are immersed in teaching, responsible for planning and conducting two classes, assessing student work, and participating as faculty members in the life of their school.

In addition to these student teaching placements, students will complete 50 hours of observation on the PK-6 level as part of the A&HL 4076 PreK-6 Methods course.

## Doctor of Education

### Applied Linguistics

Doctor of Education

**Points/Credits:** 90 **Entry Terms:** Fall Only

### Degree Requirements

The Applied Linguistics and TESOL Program offers a Doctor of Education degree with three areas of specialization: language use, second language acquisition, and second language assessment. Please see the descriptions for each of these areas of specialization below.

Students who did not receive their M.A. or Ed.M. from Teachers College will be expected to complete all the required courses or their equivalent for the M.A./Ed.M programs in Applied Linguistics or TESOL at Teachers College.

Doctoral students have five types of requirements: (1) doctoral candidacy requirements, (2) area of specialization course requirements, (3) elective courses, (4) required out-of-program breadth courses, (5) research and statistics courses. All course decisions must be made in consultation with the faculty advisor.

Transfer Courses (45 or 60 points):

- Students with an M.A. or Ed.M. from Teachers College can use up to 60 prior TC credits toward their Ed.D. program. Students from other institutions may be eligible to transfer up to 45 points from previous graduate study at an accredited institution. All credits transferred must be from coursework relevant to the degree program enrolled in, and any transfer of credits must meet the approval of the student's faculty advisor.

Candidacy Requirements for All Ed.D. Students (Minimum 15 points; courses may be taken several times):

- A&HL 5507: Research paper in applied linguistics (3)
- A&HL 6507-A: Doctoral seminar in applied linguistics (3) (Closed-Book Certification Exam)
- A&HL 6507-B: Doctoral seminar in applied linguistics (3) (Qualifying Paper/Pilot Study)
- A&HL 7507: Dissertation seminar in applied linguistics (3) (Dissertation Proposal)
- A&HL 8907: Dissertation advisement in TESOL and applied linguistics (0) (Dissertation Submission)

When doctoral students reach approximately 50 points in the program and have been at Teachers College for at least one year, they may register for a doctoral seminar every semester pending advisor's approval.

Doctoral preparation involves four successive stages:

1. Developing a critical understanding of the research literature in a given area (5500 Research Paper; 6500 Part A: Certification Exam)
2. Conceptualizing and carrying out a pilot study in the area of inquiry (6500 Part B: Qualifying Paper)
3. Writing a dissertation proposal in the area of inquiry (Dissertation Proposal)
4. Carrying out the study and writing the dissertation (Dissertation Submission)

Doctoral students are required to demonstrate research preparedness in a substantive area by passing the research paper at the 5500 level, the certification exam and pilot study at the 6500 level, the dissertation proposal at the 7500 level, and the completed dissertation at the 8000 level. Students are expected to make steady and continuous progress toward the degree. Students who fail to make timely progress may be asked to leave the program. Timely progress will be determined by the program faculty.

Students who receive less than a B+ on the 5500 paper will be terminated from the doctoral program, and will receive an Ed.M. if their 5500 paper is of acceptable quality. Students may retake 6500 part A or B one time. If students do not pass the proposal or the proposal defense, they will be asked to leave the program. In the event of a failed dissertation defense, faculty may petition the Ed.D committee to permit one additional retake, if extraordinary circumstances apply.

# ART AND ART EDUCATION

Department of Arts & Humanities

## Program Description

Our program acknowledges teaching and learning in broad terms spanning infancy to the elderly, in sites that include schools, universities, art colleges, museums, community sites, and international settings. We embrace a diversity of students representing cultures within and outside the United States who bring unique insights and richness to our community. Our work with students draws upon deep knowledge in the practice and history of art, design and popular culture, understanding and engagement with contemporary movements and debates, and well-grounded insights about artistic development and the worlds that contextualize individual lives. We expect that our students will be able to translate their knowledge into curricular and instructional practices that nurture human development and challenge learning across a diversity of life spans.

The program's curriculum and courses cross-pollinate theory and practice in fresh and innovative ways. Working with traditional and digital tools and materials, we foster our students' personal development as artists, researchers, reflective thinkers, and imaginative educational practitioners. To these ends we reach out to other programs in the College for the contributions of their distinctive disciplines, and we design conferences and symposia that invite individuals and groups to engage with us in dialogue on contemporary issues, cultures, and practices. We maintain a lively schedule of Macy Art Gallery exhibitions and professional development offerings each year that allows us to confront themes, ideas, and practices representing the varied worlds of art and education.

Research holds a critical and central place in our program, as faculty and students identify questions and engage problems that define our discipline today and anticipate future concerns. Working collaboratively through a series of seminars, our doctoral candidates "make new knowledge" through rigorous scholarship and critical reflection, forging new directions in the field. Our master's students and student teachers engage in classroom and other forms of grounded and action-based research and produce the kinds of insights needed to move the praxis of art education forward. Above all, we recognize that for artists and art educators, research necessitates exploring and experimenting with multiple ways of knowing and varied ways of presenting research in art and art education.

The faculty of the program are experienced scholars and practitioners who work closely with students to design individual programs that meet and support particular needs and goals. The vast cultural resources of New York City also offer students opportunities to enrich and expand their programs of study in vibrant ways.

## Advanced Certificate

### Creative Technologies

Advanced Certificate

**Points/Credits:** 15 **Entry Terms:** Spring/Summer/Fall

#### Degree Requirements

The Creative Technologies Certificate (CTC) is a new curriculum expansion at Teachers College, Columbia University. It explores and strengthens the relationship between art, technology, and education. The goal is to prepare artists and art teachers to be leaders in educational ecologies that aptly interweave digital tools and creative materials in multi- and cross-disciplinary, collaborative, and playful pedagogies. The state-approved advanced certificate is a 15-credit point offering within the Art and Art Education program.

The Creative Technologies Curriculum is designed for individuals with work experience and/or undergraduate or graduate degrees in studio art, art education, art history, media design, or instructional technology, among others. Candidates for the CTC would ideally be art educators, artists, designers, technologists, and others who wish to incorporate creative technologies in various educational settings.

New media and digital technologies have changed the making, teaching, learning, and accessibility of art. These changes have influenced formal and informal learning environments such as universities, schools, libraries, community centers, after school programs, and art studios. Consequently, the landscape of traditional art itself is changing as a new creative reality steeped in media, technology, and social experience emerges.

The CTC strengthens and explores the relationship between art, technology, and education. This critical trifecta is an interdependent force at the forefront of educational efforts in primary, secondary, and university-level teaching and learning. In a world of increasing digital fabrication and social practice, it is more essential than ever to demonstrate proficiency beyond any one skill set. The CTC provides this diverse training to participants so that they may become leaders in this interdisciplinary movement.

# BILINGUAL/BICULTURAL EDUCATION

Department of Arts & Humanities

---

## Program Description

In our increasingly diverse world, the study of multiple languages-in-education is in demand. The Program in Bilingual/Bicultural Education acknowledges the need to provide students with a foundation for understanding and working with bilingual learners in diverse educational settings. Our program specializes in education that privileges language minoritized student populations in the U.S. and in the world.

Students who select the course of study offered by our program will be prepared to work in schools, community organizations, and international agencies as teachers, specialists, consultants, curriculum designers, and evaluators. Students may also pursue an interest in policy and research and/or continue further studies.

Through our courses, students will examine the phenomenon of multiple languages and cultures in schools, classrooms, and communities within local and global contexts. The courses will allow students to explore interests in teaching in schools where more than one language and culture are part of the curriculum, particularly within the multilingual, multicultural city schools of New York, and to explore how the local and unique situations of schools connect to those found in other parts of the world.

Furthermore, students can observe and work in enrichment language education models that will enable them to develop the understanding and working knowledge necessary to educate language minorities while working with the goal of developing proficiency in more than one language for both language-majority and -minority students. Students will examine the nature of cross-cultural understanding and knowledge, as it provides support and access for language minority school populations to respect, develop, and preserve their languages within educational settings, to develop and strengthen their identities, and to go beyond their selves to engage in the world as productive citizens. The courses will also help students explore their place within the context of the presence of multiple languages and cultures in schools and communities and in promoting diversity in thinking and social justice in the U.S. and beyond.

Courses within the different departments will allow students to explore the distinction between regular general education teaching and teaching in settings where the curriculum is taught in more than one language, second language learning theory, literacy, and interdisciplinary intellectual endeavors.

Students will plan an appropriate course of study, according to their background, knowledge, and experiences and in relation to their future goals, with their advisor. Students are strongly advised to plan the whole curriculum during their first semester, so as to meet all requirements and to enjoy the multiple possible field experiences in educational settings. Students are also urged to go to the program website <https://www.tc.columbia.edu/a&h/bilingual/> for FAQs to explore the multiple strands available at the M.A. level, New York State requirements for certification, and distinctions in the different fields of study that might be important in the selection of the area of Bilingual/Bicultural Education as a major.

## A&HB 4020 - Foundations of Bilingual Special Education

This course is a solid introduction to the field of special education with an added emphasis on its intersection with bilingual education. It engages students in the study of the nature, psycho-social, and educational needs of individuals across the educational lifespan with disabilities. Within this course we consider issues in special education from the historical philosophical, legal, cultural, linguistic, and ethical viewpoints, and the responsibilities of teachers and other professionals toward students with disabilities and their families. Additionally, the course offers an opportunity to analyze the research in bilingual education in relation to the complexity of the over- and under-representation of bilingual students in special education, issues in relation to differentiating cultural and linguistic-related learning variations from special education issues, and instructional implications (including assistive technology). This course involves working in groups with other classmates to conduct a case study with one bilingual child with a disability. Access to educational contexts and being bilingual is preferable but not required to take this course.

# DANCE EDUCATION

Department of Arts & Humanities

## Program Description

The EdD in Dance Education doctoral program at Teachers College affirms dance as an essential form of embodied experience that shapes learning across diverse global contexts. Through dance education, people of all ages imagine, create, think critically, collaborate, understand culture, shape identity, and communicate meaning about human experiences. Our doctoral community welcomes dance educators who celebrate many dance traditions, and who are deeply committed to transforming dance education through innovating educational opportunities for a wide variety of adult stakeholders, such as teachers, artists, administrators, and policymakers. In preparing teacher educators, researchers, and leaders, the doctoral program's core mission is to cultivate educational experts that forge new pathways in dance education that are accessible, inclusive, equitable, and excellent for all learners.

The doctoral students in our community are interested in researching a wide range of educational issues impacting critically underrepresented sectors of the field. These include PK-12 dance education, high-school to post-secondary transition, university dance teacher preparation, teacher advancement, dance teacher certification, and educational policy. Our work with doctoral students aims to forge new paths in dance education through critically examining historical assumptions, reflecting on contemporary contexts, engaging in collaborative dialogue, enacting socially just practices, and forging new pathways.

Nested in the arts mecca of the world, the doctoral program brings together renowned faculty from across the college with the vibrant dance community of New York City. Teachers College is recognized by scholars as a primary incubator for the development of dance education as a field in PK-12 schools and universities. It has played a principal role in cultivating and empowering dance education leaders for over 100 years. As the nation's premier institution in the teaching of teachers in all fields, Teachers College is the ideal place to earn a doctorate in dance education and to join the legacy of dance education leadership.

The EdD in Dance Education program offers coursework to prepare doctoral students as teacher educators and researchers with leadership roles. Our courses in Embodied Learning, Dance and Human Development, and Historical Foundations develop content knowledge while facilitating opportunities to examine critical gaps in the field, where innovations have the potential to rapidly advance how we prepare future dance educators, classroom teachers, educational administrators, and policymakers. Charged with a responsibility to inform and educate adults who make critical decisions

about dance education, a series of courses prepare students to develop effective leadership strategies in a chosen sector, such as PK-12 schools, private studio settings, university contexts, consultancies, and cultural organizations. These courses, including Adult Learning, Advanced Curriculum Design, Teaching and Leadership, Seminar, and Studio Seminar, enhance content knowledge while providing students with the opportunity to design their own related inquiries and engage with the vibrant dance and arts communities in NYC and beyond as they refine their research ideas.

Students also select a specialization area and select up to 15 credits of out-of-program courses to deepen a chosen area of inquiry further:

- Teacher Education – Delves into shaping pedagogical content knowledge, supervising student teachers, and coaching educators.
- Leadership and Policy – Delves into leadership skills, program management, cultural policy, or educational administration.
- Movement Sciences – Delves into the pedagogical application of motor learning, anatomy, physiology and biomechanics.
- Interdisciplinary – A self-designed track combining aspects of the the various specialization areas or delving deeper into a one or more specific areas of inquiry, such as neuroscience, Afro-centric education, instructional technology, spirituality, creativity, peace education, visual art, music, literature, philosophy, human development, or cognition for example.

As a primary aim of the Dance Education program is to develop experienced dance educators as tomorrow's dance education researchers, the degree program culminates with a written dissertation and oral defense of an original, student-designed, empirical research study. We believe that the multiple ways of knowing that are embedded in dance practices can serve as the bedrock for developing a research identity and for conducting multi-modal research that is convincing and transformative. Given that individualized research is at the core of the Ed.D. degree experience, students are provided with persistent support in designing and implementing a research study. Through a series of collaborative doctoral and dissertation seminars, students are guided through the research process while developing critical inquiry, reflection, dialogic and argumentative practices that underpin research. As the result of the seminars, students develop the critical components of their doctoral exam and dissertation research study, including a review of literature, a pilot study, a research proposal, and an IRB ethics review. Students also select from a wide variety of research methods courses offered at the college to tailor their research visions. A culminating course, Writing for Journal Publication, prepares students to disseminate their discoveries in refereed publications. Certified doctoral students work closely with program faculty members who serve as the dissertation advisors. The culminating dissertation committee includes dance education faculty as well as college-wide faculty selected for related field expertise.

The Arnhold Institute for Dance Education Research, Policy and Leadership dovetails with the Ed.D. program and provides students with a dynamic research community where they engage with outstanding educational researchers and guest scholars as well as participate in dance education consortia, symposiums, and professional learning events.

# ENGLISH EDUCATION

Department of Arts & Humanities

## Program Description

MASTER OF ARTS (34, 35, AND 38 CREDITS)

An English teacher creates contexts and opportunities for students to develop as readers, writers, speakers, and listeners, as well as the cultural knowledge and critical thinking processes that nourish and refine the arts of language. Classroom teachers of English must possess a deep understanding of the development of the arts of language, and they must be accomplished practitioners of those arts in their own intellectual and creative lives. Effective teachers must also be keen and responsive readers of their students as learners and of the obstacles that might obstruct learning in classrooms.

English teachers must, therefore, function as exemplary learners in their own classrooms, committed to developing themselves as reflective, flexible, and professionally well-informed practitioners who can accommodate their instruction to serve the needs of a diverse population of students.

The M.A. programs in the Teaching of English at Teachers College are designed to prepare pre-service and in-service teachers for productive careers as exemplary instructors and leaders for the profession of English both regionally and nationally. Our programs seek a balance between strengthening and refining the disciplinary knowledge and practices of our M.A. students on the one hand, while preparing them for the pedagogical application of their knowledge in their professional practice as classroom English teachers.

Our course offerings are directly relevant to the everyday challenges of teaching English in grades 7-12. We offer a range of courses that inquire into literature, literary theory, rhetoric, and writing, along with unpacking issues related to sociocultural contexts, curriculum development, assessment, and instructional practices. Our programs are unique in the degree to which they are focused on preparing our graduates to serve as cutting edge experts in pedagogy for the English classroom, while building that expertise on their continuing study of the target disciplines of literature, composition, and the range of traditional and newer multi-literacies that define the changing field of English studies.

The Teaching of English Program offers the following M.A. degrees: Teaching of English leading toward Initial New York State Certification (38 credits), Teaching of English leading toward Professional Certification in New York State in Teaching of English (34 credits), Teaching of English INSTEP Program (34 Credits), and Teaching of English leading toward Transitional B Certification (35 Credits).

All courses outlined below must be taken at Teachers College. We do not accept transfer credits. During the first semester, students will be assigned an academic faculty advisor who will assist them in choosing courses. It is recommended that students studying full-time begin their coursework the summer before the academic year.

For all programs leading to teacher certification, New York State Education Department (NYSED) has teacher certification requirements that are needed for program completion and graduation which are listed in the Office of Teacher Education section of the catalog.

#### M.A. IN THE TEACHING OF ENGLISH WITH NEW YORK STATE PROFESSIONAL CERTIFICATION 34 CREDITS)

#### MASTER OF EDUCATION (60 CREDITS)

The Master of Education (Ed.M.) degree is a 60-credit program designed for individuals interested in advanced study in the field of English Education. The Ed.M. degree is well suited for individuals who are currently teaching and who wish to concentrate their studies further within the field of English education and/or individuals who are thinking about undertaking doctoral work in English education. Individuals applying to the Ed.D. program in the Teaching of English sometimes are asked to complete the Ed.M. program before gaining admission to the Doctoral program. The Ed.M. program does not lead to certification for teaching.

## DOCTORAL PROGRAM (75 and 90 CREDITS)

The English Education program at Teachers College offers three doctoral degrees: Doctor of Philosophy in English Education (Ph.D., 75 Credits), Doctor of Education in the Teaching of English (Ed.D., 90 Credits), and Doctor of Education in the College Teaching of English (Ed.D.C.T., 90 Credits). The primary purpose of the doctoral programs in English Education at Teachers College is to advance knowledge relevant to the teaching and learning of English and to prepare expert teachers of English for careers as scholars, researchers, and teacher educators in the field of English education. The doctoral programs in English Education support a wide range of interests, backgrounds, and professional ambitions in its applicants. However, all students are expected to become conversant with the principal theories, research methods, and pedagogical traditions of the field of English education. Beyond these fundamentals, students work in close consultation with faculty members to develop individualized programs of study. Applicants to the doctoral programs ordinarily possess a master's degree in English, Education, or a related field and have three to five years of prior teaching experience at the secondary school or college level.

## Degrees

### Master of Arts

#### TESOL: Teaching of English to Speakers of Other Languages/Teaching of English

Master of Arts | Dual Cert: TESOL (Pre K-12) and Teaching of English (7-12)

**Points/Credits:** 45-46 **Entry Terms:** Summer/Fall **Certification:**

Dual Certification NY State Initial: English to Speakers of Other Languages (TESOL) Pre-K-12 /  
and NY State Initial: Teaching of English (7-12)

#### Degree Requirements

The dual certification MA in English Education and TESOL (Teaching English to Speakers of Other Languages) is an innovative new program that responds to a growing need for dually certified teachers. The program leads to a PK-12 Initial New York State Teacher Certification in TESOL and a secondary certification (7-12) in English Education. Students complete 45-46 credits of coursework over two academic years, including two semesters (Fall and Spring) of student teaching.

Students work with leading researchers and practitioners in the fields of English Education and TESOL through comprehensive and innovative coursework and research projects. In addition, students are mentored by experienced teachers during their two semesters of student teaching in the New York City school system. While students will graduate with two separate certifications, the purpose of the dual certification program is to explore the intersections between the teaching of English and TESOL; we examine specifically both the unique challenges and opportunities of teaching secondary English and TESOL simultaneously.

Candidates applying for initial certification in New York will be required to fulfill NYSED's Content Core requirements for initial certification (see <https://www.tc.columbia.edu/office-of-teacher-education/students/certification-requirements/initial-certification/> ). They will also be required to take and pass all required New York State exams for initial certification. For more information, please visit our Office of Teacher Education (OTE) website:

Students complete a Master's project written on a research topic arising from course-related interests and subject to approval by their assigned advisor. This project can be a review of literature on a scholarly topic or a teacher inquiry project. It is normally completed during the penultimate semester of study. The Master's Seminar supports the completion of this project.

Student Teaching

Students in the 45-46 point TESOL/Teaching of English program have two separate semesters of student teaching. As specified by New York State in the requirements for 7-12 ELA Initial Certification, one of these experiences is in a middle school and the other is in a high school. Most placements are made in urban public schools in New York City. Commuting to one of the outer boroughs should be expected. In each semester, student teachers will be placed in classrooms in which both TESOL and English Language Arts are taught.

Student teaching experiences differ by semester. In the first (Phase 1) semester, the cooperating teacher has primary responsibility for designing the curriculum. While students do not have the major responsibility for designing or organizing the course of instruction, they are active participants in the classroom and school communities.

Although the Phase 1 experience varies, students are engaged in observation, group work with students, conferencing, and teaching. Later, toward the end of the Phase 1 experience, at a time mutually agreeable to both cooperating teacher and student teacher, the student teacher is expected to assume full responsibility for one class.

During Phase 2 of student teaching, student teachers are immersed in teaching, responsible for planning and conducting two classes, assessing student work, and participating as faculty members in the life of their school.

In addition to these student teaching placements, students will complete 50 hours of observation on the PK-6 level as part of the A&HL 4076 PreK-6 Methods course.

### Foundations/Breadth Requirement

Foundations courses are intended to broaden students' knowledge of the history of education, philosophies of education, and educational issues and practices beyond their particular area of concentration. All students must take at least 6 points of such courses (courses in Teachers College not designated "A&HE") in close consultation with their advisors and with the TC Office of Teacher Education (for those students enrolled in programs leading to certification). For those seeking Initial Certification (38-credit program), foundations credits must be used to meet

the New York State requirements for classes in History/Philosophy of Education, Disabilities/Special Education, and Human Development/Psychology if these have not been taken in previous college-level coursework. These courses may be taken as pass/fail.

### **Electives**

Electives provide students the opportunity to explore particular interests as they design their own programs in consultation with an academic faculty advisor.

Students whose program permits room for electives may take any graduate-level courses at Teachers College or Columbia University.

### **Master's Seminar**

All M.A. students are required to enroll in the A&HE 5590, Master's Seminar: Reflective Practice. Students in the 38-credit program enroll in A&HE 5590 the same semester they enroll in Phase 2 of A&HE 4750, Supervised teaching of English. Students in the 34-credit program enroll in A&HE 5590 during their final semester. Within the context of this course, all students work with an instructor to design and complete their master's projects.

### **Student Teaching**

Students in the 38-credit Teaching of English program have two separate semesters of student teaching. As required by New York State, one of these experiences is in a middle school and the other is in a high school. Most placements are made in urban public schools in New York City. Commuting to one of the outer boroughs should be expected.

Student teaching experiences differ by semester. In the first (Phase 1) semester, a pair of students may be placed in a classroom under the direction of a single cooperating teacher. The cooperating teacher has primary responsibility for designing the curriculum. While students do not have the major responsibility for designing or organizing the course of instruction, they are active participants in the classroom and school communities. Although the Phase 1 experience varies, students are engaged in observation, group work with students, conferencing, and teaching. During this semester, students understand, appreciate, learn from, and coach students as readers and writers. Students begin to take over full responsibility for lessons for the purpose of benefiting from feedback and evaluation during University Supervisor visits. Later, toward the end of the Phase 1 experience, at a time mutually agreeable to both cooperating teacher and student teacher, the student teacher is expected to assume full responsibility for one class. A three to four week unit of study might be appropriate at this point.

During Phase 2 of student teaching student teachers are immersed in teaching, responsible for planning and conducting two classes, assessing student work, and participating as faculty members in the life of their school. Phase 2 student teachers do not ordinarily enroll in any academic courses except those that define and are an integral part of the student teaching experience. Hence, students enroll in A&HE 4750: Supervised Teaching of English (3 credits), A&HE 4751: Fieldwork and Observation in Secondary English (1 credit), A&HE 5204: Fieldwork Workshops in Teaching English (1 credit), and A&HE 5590: Master's Seminar: Reflective Practice(1 credit). These courses together constitute the student teaching experience in its active, creative, and reflective dimensions.

The program emphasizes aesthetic education through a course collaboration with Lincoln Center Educational Institute that is followed up with involvement in successive courses and the students' final project based on research on classroom practice. Threaded through the coursework are emphases on issues of culture and social justice, innovative teaching methods, and teacher professionalism. Supplementary online courses for each cohort conducted during the academic year after summers 1 & 2 allow the cohorts to continue their collegial collaboration during the academic year while satisfying the few remaining requirements.

InSTEP is a 34-point program offering an MA, but not a professional certificate. ### **Electives**

Electives provide students the opportunity to explore particular interests as they design their own programs in consultation with an academic faculty advisor.

Students whose program permits room for electives may take any graduate-level courses at Teachers College or Columbia University.

### **Master's Seminar**

All M.A. students are required to enroll in the A&HE 5590, Master's Seminar: Reflective Practice. Students in the 38-credit program enroll in A&HE 5590 the same semester they enroll in Phase 2 of A&HE 4750, Supervised teaching of English. Students in the 34-credit program enroll in A&HE 5590 during their final semester. Within the context of this course, all students work with an instructor to design and complete their master's projects.

## **Master of Education**

### **Teaching of English**

Master of Education

**Points/Credits:** 60 **Entry Terms:** Spring/Summer/Fall

## Degree Requirements

Master of Education (Ed.M., 60 credits)

The Ed.M. program is a 60-credit advanced master's program to which students may transfer up to 30 credits of prior graduate-level study. Requirements in the Ed.M. program are flexible. Aside from three required research methods courses and A&HE 5504: Research paper: Teaching of English, students select, in consultation with a faculty advisor, an array of courses that facilitate their intellectual and professional goals.

### General Coursework Requirement

Depending upon the number of credits transferred in, students must complete between 15 and 45 credits at the A&HE 4000, A&HE 5000, and A&HE 6000 levels. Students transferring up to 30 credits must take most of their courses at the more advanced A&HE 5000 and A&HE 6000 levels. It is possible to substitute a 12-15 credit specialization in an area other than English Education and/or one graduate-level course at Columbia University with an academic faculty advisor's approval. Students considering moving on to doctoral studies should consult with their advisor about limiting the number of 4000 level courses.

### Research Methods Courses

At least 9 credits (three courses) of research methods must be completed for the Ed.M. degree. Although courses may include both quantitative and/or qualitative methods, we recommend that at least one course represent study in the area of qualitative research. At least one course should be taken from the research offerings in the English Education Program; the two other courses may be taken in any department at Teachers College.

### A&HE 5504. Research paper: Teaching of English

The research paper for A&HE 5504, required of all Ed.M. students, is the core of the Ed.M. program. The purpose of this paper is to evidence the student's ability to conduct independent research. It entails work that results in an original synthesis of a broad reading of theory and research. The A&HE 5504 research paper typically includes:

1. A rationale for the project and demonstration of an understanding of the literature of the field related to the topic(s) undertaken;
2. A pilot study, including data gathering and analysis and justification of research methods employed;
3. A critique of the pilot study, including the student's reflections on the study's design and methodology as well as research strengths and weaknesses; and
4. Implications relevant to the student's future research

## Doctor of Education

### Teaching of English

Doctor of Education

**Points/Credits:** 90 **Entry Terms:** Summer/Fall

## Degree Requirements

Doctor of Education (Ed.D., 90 credits)

The Doctor of Education (Ed.D.) is designed to prepare future teacher educators and education professionals who will assume teaching and professional leadership roles in English education within colleges and universities, schools and school districts, and non-profit, state, and federal educational agencies that demand advanced expertise in the teaching of the English Language Arts.

Required courses for ALL English Education/Teaching of English doctoral candidates:

- A&HE 5504 Research Paper: Teaching of English
- A&HE 5510: Seminar in Foundational Texts
- A&HE 6504 Doctoral Seminar: Teaching of English
- A&HE 7504 Dissertation Seminar: Teaching of English
- A&HE 8904 Dissertation Advisement in the Teaching of English
- A range of electives in literary and rhetorical studies
- Four research methods courses for a total of 12 credits. It is recommended that the candidates include at least two of the following:
  - A&HE 5149 Writing Research: Methods and Assumptions
  - A&HE 5150 Research in Practice
  
- A&HE 6151 Narrative Research in English Education
- A&HE 6152 Advanced Narrative Research in English Education

Students may also satisfy the requirement for research methods courses by completing approved courses in other programs and departments across the College.

#### Credit Requirements and Transfer Credits for the Ed.D. Program in the Teaching of English

The number of courses students must complete depends largely on the number of credits approved for transfer from previous graduate work. Students working toward an Ed.D. degree (90 credits) may transfer a maximum of 45 credits and will thus complete at least 45 credits while in the Ed.D. program. Approval of transfer of credits is always at the discretion of the advisor.

#### Coursework Restrictions

An academic advisor must approve all coursework in a student's program plan, especially to ensure enforcement of the following College and Departmental policies:

- No course that is "R" (attendance) credit or that is "P" (pass/fail) may be counted toward the Ed.D. aside from A&HE 6504 and A&HE 7504.
- Students must consult their academic advisors when they undertake an independent study, an internship, fieldwork courses, or graduate courses in other colleges (usually GSAS) of Columbia University or at other universities within the Inter-University Doctoral Consortium.
- Doctoral students are generally discouraged from taking 4000-level courses and must consult with their academic advisors before registering for these courses.
- Candidates should take a minimum of three courses outside the English Education Program (Courses not designated A&HE).

#### Doctoral Program Milestones Program Plan

During their first year of study, students in consultation with their advisor should complete and file with their advisor and with the Office of Doctoral Studies a program plan (the forms are available in the English Education office and in the Office of Doctoral Studies) anticipating all the courses they will need to complete within the scope of their doctoral studies. This program plan should then be reviewed annually with the student's advisor --and revised as necessary -- giving student and advisor an annual measure of the student's progress through the program.

#### A&HE 5504: Research Paper in the Teaching of English

Before enrolling in A&HE 5504, students must have completed at least two research methods courses, have successfully completed their Certification 1 Examination, have discovered an area or problem of interest that they wish to study for their 5504 project, and have familiarized themselves with some of the available research literature on the topic or problem they propose to investigate. The research paper completed in A&HE 5504 allows a doctoral student to demonstrate the capacity to complete independent research and produce a research paper at a level of sophistication that promises success in undertaking a doctoral research project and doctoral dissertation. The completed A&HE 5504 research paper must be approved by faculty member(s) in order for the student to further progress in his or her program of study.

#### Certification Examinations

Certification examinations certify a student's expertise in the foundational texts, research traditions, and theoretical perspectives that represent the history of English Education as an academic discipline and that inform research in the more specialized field of study defined by a student's anticipated dissertation project. Doctoral students in English Education must pass two separate certification examinations. Examination 1 is a take-home examination, seven days in duration, covering the history of English education with a focus on one of the major curricular strands within the discipline. Examination 2, covering a specialized disciplinary area related to the student's dissertation topic, is a take-home written examination to be completed within a time frame (up to one semester) set by the student's faculty advisor. The topics and texts to be covered by the two examinations and the examination questions are determined by each student's advisor in consultation with the student who will be examined. Students become eligible to register for Certification Examinations when their signed approval form for the 5504 Research Paper has been filed in the English Education Program office.

#### Dissertation Proposal (A&HE 7504)

The doctoral dissertation proposal consolidates the work candidates have done in courses, professional reading, and the two certification examinations. It is usually a 60 to 100-page document, which outlines a coherent account of the work a candidate wants to undertake for dissertation research, usually presenting drafts of early chapters for the dissertation. Typically a proposal includes an introductory chapter describing the origins and aims of the project, a fairly complete review of the literature, a chapter on research methods, and some preliminary data and data analysis. The dissertation proposal must be accepted at a formal or informal hearing where at least two faculty members function as examiners. Students may not undertake the dissertation proposal until both Certification exams have been completed successfully.

#### Dissertation

The doctoral dissertation is the culminating research project of the doctoral program and constitutes a significant contribution to knowledge in the field of English Education. As candidates write their dissertations, they must enroll in A&HE 8904: Dissertation Advisement in Teaching English, which is designed to help them refine their thinking and revise their writing as they complete successive drafts of their dissertation.

#### The Advanced Seminar

What is known historically as the Advanced Seminar now functions as a pre-defense meeting of a portion (2-3 faculty members) of the Ed.D. candidate's doctoral dissertation committee, which convenes to interrogate and advise the candidate on the dissertation in progress in order to ensure its successful completion. The committee may be convened at any point in a candidate's progress toward completing the dissertation research, but is ordinarily convened for English education candidates at a point when the candidate can present a rough draft of the entire dissertation for scrutiny by the dissertation committee members. The committee is convened in response to a formal request filed with the Office of Doctoral Studies (ODS) by the candidate with the approval of the dissertation advisor. Candidates should consult the ODS early in the dissertation project to ensure that all procedural rules for convening the Advanced Seminar and reporting on its deliberations are properly observed.

#### Dissertation Defense

The dissertation defense offers the opportunity for members of the candidate's dissertation committee, all of whom have carefully read the dissertation, to interrogate the candidate on any and all dimensions of the candidate's research and the written dissertation that is the product of that research. In most cases the committee will suggest minor revisions that the candidate is expected to incorporate into the dissertation before filing the final version. A typical defense, however, is less an interrogation than it is a collegial discussion of the candidate's research project and findings with attention to next steps in the candidate's research agenda and possibilities for revising and publishing the dissertation or sections of it. A successful dissertation defense marks both a moment of certification and a ritual initiation. At the conclusion of a successful defense, authorized doctoral faculty officially certify a candidate's accomplishment in completing a major research study that makes a significant contribution to knowledge in the field of English education broadly defined and thereby welcome the doctoral candidate into the community of scholars.

# HISTORY AND EDUCATION

Department of Arts & Humanities

---

## Program Description

The Program in History and Education is one of the oldest at Teachers College, the history of education having been one of the first components of the university study of education. Many of the earliest doctoral dissertations at Teachers College dealt with historical subjects, even in the case of students aspiring to careers in curriculum, guidance, and administration.

The program prepares people to teach in graduate schools of education, undergraduate departments of education, departments of history, theological seminaries, or other academic institutions, and to work as research scholars in institutes, government bureaus, or social service agencies where a deep understanding of education in historical perspective is essential.

The program addresses important educational questions first, by examining the ideas, individuals, and institutions of the past to determine their influence on their own times and second, by bringing historical knowledge and perspective to bear on current educational issues. The program offers courses covering the educational history of America, urban areas, women, immigrants, and African-Americans.

The program is open to students of broad and diverse backgrounds who can give evidence of academic competence and personal qualities suggesting high probability of professional success. Each student in the program is expected to take courses in the history of education, as well as in the more generalized fields of social, political, and cultural history. Students can also take subject matter courses in cognate areas aimed at complementing and supporting their specialized areas of interest within the history of education. In addition, most students engage in continuous independent research under the supervision of a faculty member.

Students in the program are encouraged, with their advisor's guidance, to make full use of resources offered by other programs at Teachers College, Columbia University, the Jewish Theological Seminary, and Union Theological Seminary.

Note: If you are interested in becoming a certified public school teacher, please see the program in Teaching of Social Studies in this department. The program in History and Education does not lead to public school certification.

The Ed.D. prepares students for positions in the teaching and supervision of music in elementary and secondary schools, the teaching and administration of music in early childhood settings, the teaching of music in schools and studios, the teaching and administration of music in colleges and universities, and careers in music and interdisciplinary areas, such as the arts and humanities, special and adult education.

**The Ed.D. Summer Cohort Program** is a unique offering designed for students who are also music faculty members holding full-time academic appointments who are interested in completing a doctoral program. It allows students to complete primary coursework over four summers and gain competency in Musicianship, Performance, Pedagogy, and Research. The program combines focused curriculum geared towards teaching with noted faculty in New York City. Students receive individual attention due to the small cohort size of incoming classes.

**Specifically, the Ed.D. Summer Cohort Program** is a unique offering designed for music education professionals holding full-time professional appointments who are interested in completing a doctoral program. Additionally, students in the summer cohort are expected to be in New York during the summer B session and take at least 12-18 credits (4-5 courses) each year (across Fall, Spring, Summer), with at least 9 credits (3-4 courses) taken each summer (across both summer sessions).

A master's degree is required for participation in this program and the preparation and defense of a dissertation is required for the awarding of the Doctoral degree.

At least 54 points of work must be completed at Teachers College. A maximum of 36 graduate points may be accepted from other recognized graduate schools. Transfer credits are evaluated and allocated by the Registrar's Office for consideration by the Music Program. Final determinations are made by the program faculty.

Doctoral students must complete a minimum of 15 points of coursework in areas other than those in the Music Program. For the Ed.D. in College Teaching program, two of these courses must be in the area of higher education.

To ensure breadth in professional background, coursework should result in competency in the following four broad areas: (1) Pedagogy, (2) Research, (3) Musicianship, and (4) Music Performance. The preparation and the defense of a dissertation is required for the doctoral degree. When writing the dissertation, each candidate has a sponsor and an additional committee member. ### **A&HM 4033 - Approaches to Teaching Musical Instruments**

(Pedagogy) This course will examine teaching and learning in the context of instrumental music. It will serve as an overview of theoretical and philosophical constructs of instrumental music pedagogy. The resulting practices inform our knowledge of teaching through the process of learning instruments in a small group setting. Focus will be on the years students typically begin the learning of wind, brass, and percussion instruments in schools, around the age of 10, through intermediate and advanced levels in middle and high school. Fundamental to our approach will be the development of lesson planning that puts the student at the center of her learning experiences. Not content with the traditional master/apprentice model, we will seek opportunities to improvise and create, allowing students even in the early stages to assume some degree of control over how they make music and what they choose to play. Questioning techniques in the instrumental lesson setting will encourage reflection on action that results in a broadening, not just of skills, but of the kind of reflective thought that is at the heart of educative experiences. Activities and projects in class will center around developing appropriately sequenced lesson plans, understanding the unique characteristics of instruments of various families, and put all class members in the dual role of teacher and student.

# PHILOSOPHY AND EDUCATION

Department of Arts & Humanities

## Program Description

This program has shaped the historical course of philosophy of education in America. From the groundbreaking work of John Dewey and William Heard Kilpatrick to the achievements of their most recent successors, Jonas Soltis and Maxine Greene, the program's philosopher-scholars have been leaders in the field. The Philosophy and Education Program offers students a unique opportunity to develop their humanistic and critical thinking about education.

Faculty and students in the program devote this thinking to a wide variety of questions, including:

- What visions of the human being animate contemporary schooling?
- How can education be a force for social reform?
- What is the role of aesthetic experience and the imagination in education?
- What type of education befits a multi-cultural society?
- What is the nature of the teacher-student relationship?

Other areas of interest include:

- The education of democratic citizens
- Moral education
- Critical thinking
- Education and technology
- The ethics of teaching

The Philosophy and Education Program provides an opportunity for educators to broaden and deepen their understanding of the processes and aims of education through inquiry into the fields of aesthetics, ethics and moral philosophy, social and political philosophy, and epistemology and the philosophy of science. Study of a variety of historical and conceptual frameworks enables students to develop theoretical perspectives on education and to effectively analyze and critique arguments in contemporary educational debates.

Recent dissertations include studies of equity in access to education, Nietzsche's conception of education, the ethics of school choice, cosmopolitanism and education, the nature of authentic learning, Matthew Arnold's conception of liberal education, and human rights education in light of Kant's moral philosophy.

# TEACHING OF SOCIAL STUDIES

Department of Arts & Humanities

## Program Description

The Social Studies Program is rooted in a diverse set of humanities and social sciences, from history and political science to geography and sociology, with a particular focus on making this subject matter resonant in the lives of young people. The program examines the many contexts in which social studies education is enacted and relies upon deep theorizing and engaged practice in the realms of curriculum and pedagogy. We recognize the importance of the urban context in which we are situated and work to serve this vibrant city, particularly historically marginalized students within it, as we recognize the globally interdependent nature of education.

Social studies educators must have a deep understanding of various fields and be thoughtfully engaged in teaching, cognizant of the diverse and fluid needs of students, and alive to the interplay of various contexts that shape and inform social studies education. The program prepares students for professional lives in schools, universities, and allied institutions. The faculty's experience as teachers and engagement as scholars in fields like history, civics, economics, geography, and social studies are well suited to that purpose. These strengths, along with the resources of Teachers College and Columbia University Graduate School of Arts and Sciences, are available to every student.
