SPONSORED RESEARCH GRANTS, SUBCONTRACTS AND TRAINING SUPPORT

2024-29 ***Integrating Breast Cancer and Cardiovascular Disease Risk to Explore Decision-Making for Chemoprevention Among Racially/Ethnically Diverse Women at High Risk for Breast Cancer*** (Rita Kukafka and Katherine Crew, Co-PIs). *Source:* NIH NCI R01. *Total costs:* $3,438,069. *Goal:* To investigate where and why, on the patient's journey from understanding their risk to discussing risk-reducing medications with their provider, there is a divergence resulting in lower uptake of breast cancer chemoprevention relative to the use of statins for CVD. *Role:* Principal Investigator (Subaward Year 01 and 02).

2021-24 ***Coronavirus: Impact on Adolescent Mental Health Problems and Harmful Behaviors*** (Thorhildur Halldorsdottir, PI). *Source:* Icelandic Centre for Research (Icelandic Research Fund). *Total costs:* $338,000. *Goal:* To 1) examine the short- and long-term effect of COVID-19 on adolescent mental health and behavior; 2) identify risk and protective factors associated with short- and long-term adolescent mental health problems and harmful behaviors during COVID-19; and 3) determine the genetic contribution towards mental health problems and harmful behaviors in adolescents following COVID-19. *Role:* Senior Co-Investigator.

2021-24 ***Subproject #3: School Violence Exposure as an Adverse Childhood Experience: A Nationwide Study of K-12 School Responses to Violence and their Impact on Youth Mental Health and Educational Outcomes*** (Sonali Rajan, PI). *Source:* CDC NCIPC R49 Columbia Center for Injury Science and Prevention (Charles Branas, PI). *Total costs:* $100,456. *Goal:* To fill critical gaps in knowledge by collecting cross-sectional survey data from a national sample of students, teachers, and principals from twelve K-12 schools across the United States with varying degrees of exposure to school shootings by examining if the strength of the association between exposure to school safety interventions and mental health outcomes in particular varies as a function of the burden of trauma experienced within a school. *Role:* Co-Investigator

2022-23 ***Advanced Biopsychosocial Simulation for Harmful Adolescent Behaviour (LIFECOURSE-ABMS)*** (Inga Dora Sigfusdottir and Kristinn Þórisson, Co-PIs). *Source:* European Research Council. *Total costs:* $165,600. *Goal:* To produce a compact, unified computational infrastructure and access point for answering theoretical questions across several fields of research, including social, biological, and psychological, as well as practical questions about social programs, intervention strategies, and their deployment methodologies. *Role:* Senior Co-Investigator.

2015-20 ***A Multilevel Analysis on the Effects of Stress on Biology, Emotion and Behaviour Throughout Childhood*** (Inga Dora Sigfusdottir, PI). *Source:* European Research Council. *Total costs:* €1,999,188 ($2,200,394). *Goal:* To improve our understanding of the the influence of stress on behavioural outcomes among adolescents, including substance use, suicidal behaviour, self-inflicted harm, and delinquency. *Role:* Co-Investigator.

2013-18 ***Tailored Sleep Health Education: A Community-Engaged Approach*** (Girardin Jean-Louis, John Allegrante, Gbenga Ogedegbe, PIs). *Source:* NIH NHLBI R25. *Total costs:* $1,329,257. *Goal:* To develop innovative education tools and platforms to promote transfer of sleep health information to blacks to foster uptake of healthful sleep practices. *Role:* Principal Investigator (Subaward).

2012-14 ***Multilevel Analysis of Risk and Protective Factors for Risky Behaviours in Adolescents*** (Inga Dora Sigfusdottir, PI). *Source:* Icelandic Centre for Research (Icelandic Research fund). *Total costs:* ISK 5,400,000 ($43,000). *Goal:* To improve our understanding of the social factors that influence the development of risk behaviour among adolescents, including substance use, suicidal behaviour, unprotected sex, self-inflicted harm, and delinquency. *Role:* Co-Investigator.

2010-12 ***Columbia University Curriculum Development Center*** (Rita Kukafka, PI). *Source:* DHHS ONCHIT U24. *Total costs:* $1,820,000. *Goal:* To develop educational materials for key health information technology (IT) topics to be used by 70 community colleges participating in a consortia program designed to support training and development of more than 50,000 new health IT professionals in the United States. *Role:* Principal Investigator (Subaward).

2009-12 ***Practice-Based Trial to Improve Blood Pressure Control in Blacks with Hypertension*** (Gbenga Ogedegbe, PI). *Source:* NIH NHLBI R01. *Total costs:* $2,325,498. *Goal:* To test the effectiveness of a practice-based comprehensive therapeutic lifestyle intervention, delivered through group-based counseling and motivational interviewing in a two-arm, randomized controlled trial in 500 poorly controlled hypertensive African-Americans, who receive care in community-based primary care practices. *Role:* Principal Investigator (Subaward).

2006-10 ***A Behavioral Intervention to Improve Hypertension Control in Veterans*** (Sundar Natarajan, PI). *Source:* VA HSR&D Study. *Total costs:* $1,427,785. *Goal:* To determine whether a stage-matched intervention is effective in lowering blood pressure at 6 months compared to usual care or an attention placebo intervention in veterans with hypertension, and to evaluate the sustainability of the two interventions. *Role:* Consultant and Co-Investigator.

2005-10 ***Trial of Asthma Patient Education in the Emergency Room*** (Carol Mancuso, PI). *Source:* NIH NHLBI R01. *Total costs:* $2,300,000. *Goal:* To assess the effectiveness of an intervention involving education, enhanced self-efficacy, and enhanced asthma-related social support in improving the quality of life outcomes among 214 adult patients with asthma treated in the emergency department. *Role:* Principal Investigator (Subaward).

2004-09 ***Complementary and Integrative Medicine Training Program (***Mary Charlson, Director). *Source:* NIH NCCAM T32. *Total costs:* $720,654. *Goal:* To prepare post-residency physicians with knowledge, skills, and experience to conduct scientifically rigorous research in complementary and integrative medicine. *Role:* Core Faculty (Subawzrd).

2002-07 ***Translational Behavioral Science Research Consortium*** (Mary Charlson, PI). *Source:* NIH NHLBI N01. *Total costs:* $8,407,869. *Goal:* To support innovative research designed to facilitate adoption and maintenance of behavior change in the secondary prevention of adverse outcomes among patients with chronic cardiopulmonary diseases. *Role:* Principal Investigator (Subaward).

2001-06 ***Motivational Interviewing in Hypertensive African Americans*** (Gbenda Ogedegbe, PI). *Source:* NIH NHLBI R01. *Total costs:* $1,424,504. *Goal:* To evaluate among 150 hypertensive African-American patients with poorly controlled hypertension followed in a community-based primary care practice whether motivational interviewing is more effective than usual care in achieving adherence to prescribed antihypertensive medications at 12 months. *Role:* Principal Investigator (Subaward).

1999-03 ***Improving Health Behavior and Outcomes after Angioplasty*** (Mary Charlson, PI). *Source:* NIH NHLBI R01. *Total costs:* $3,079,765. *Goal:* To compare the efficacy of two strategies of motivating behavioral change—a standard approach vs. an experimental biologic age approach—in improving two-year outcomes among 660 coronary artery disease patients who have undergone angioplasty with or without stents. *Role:* Principal Investigator (Subaward).

1995-98 ***A Cost-Benefit Analysis of a Randomized Trial of Self-Efficacy and High Intensity Strength Training to Improve Postoperative Rehabilitation of Hip Fracture Patients*** (Hirsch Ruchlin, PI). *Source:* Arthritis Foundation. *Total costs:* $224,440. *Goal:* To evaluate the cost-benefits of the overall impact of a novel, multiple-component intervention program to reduce poor functional outcomes and institutionalization following hip fracture. *Role:* Principal Investigator (Subaward)

1994-08 ***Health Services Research Training Grant*** (Mary Charlson, Director). *Source:* AHRQ T32. *Total costs:* $7,731,576. *Goal:* To prepare post-residency physicians who will conduct methodologically rigorous health services research in a multidisciplinary environment that will enable them to develop and implement solutions to the nation's pressing health care problems. *Role:* Associate Director.

1993-99 ***Self-Efficacy and Strength Training to Improve Postoperative Rehabilitation of Hip Fracture*** (Subproject, John Allegrante, PI). *Source:* NIH NIAMS P60 Multipurpose Arthritis Center (Charles Christian, Robert Kimberly, Stephen Paget, PIs). *Total costs:* $315,241. *Goal:* To evaluate the overall impact of a novel, multiple-component intervention program to reduce poor functional outcomes and institutionalization following hip fracture. *Role:* Principal Investigator (Subaward)

1991-96 ***Sociocultural and Organizational Barriers to Care for Potentially Disabling Arthritis in the Black and Latino*** (Mary Charlson, PI). *Source:* Robert Wood Johnson Foundation. *Total costs:* $50,000. *Goal:* To document the prevalence and severity of symptomatic hip or knee arthritis as well as prevailing community knowledge and attitudes towards treatments for arthritis in three community districts in Manhattan, one predominantly black, one Latino, and one white. *Role:* Co-Investigator.

1988-99 ***Multipurpose Arthritis Center*** (Charles Christian, Robert Kimberly, Stephen Paget, PIs). *Source:* NIH NIAMS P60. *Total costs:* $10,117,069. *Goal:* To improve the care of patients with arthritis and musculoskeletal disorders by developing and supporting new research initiatives that would stimulate scientific advances in the diagnosis, prognosis, treatment, and prevention of disease; improve patients' functional status and ability to cope; and meet emerging needs in patient and public education. *Role:* Assistant Director, Administrative Core; Associate Director, Education, Epidemiology and Health Services Research Methodology Core; and Principal Investigator (Subaward)

1985-90 ***Study of Childhood Activity and Nutrition*** (Isobel Contento, PI). *Source:* NIH NHLBI R01. *Total costs:* $1,757,948. *Goal:* To identify the determinants of diet and physical activity behaviors in children that place them at increased risk for coronary heart disease, and to develop guidelines and recommendations that could be useful in planning and implementing health promotion interventions designed to reduce population-wide risk factors. *Role:* Co-Investigator (Year 01).
