

Today we are experiencing a shift in social structures as lesbian, gay, bisexual and transgender populations advocate for full acceptance in societies across the globe. With this comes the need for increased awareness and education on the issues affecting the LGBTQ community from both an individual and social context.

In our commitment to diversity and social justice for all learners, Teachers College is pleased to announce **The LGBTQ Diversity Scholarship** – a new scholarship for those interested in a career that supports LGBTQ populations in the fields of health, education, and psychology. The LGBTQ Diversity Scholarship will award **\$18,000 in tuition assistance** to selected recipients who demonstrate a commitment to research and practice surrounding LGBTQ issues and awareness.

Teachers College is collaborating with the Tyler Clementi Foundation in offering this scholarship for the first time in 2014. For more information about the Tyler Clementi Foundation, please visit the [Tyler Clementi Foundation website](#). Recipients of the Teachers College LGBTQ Scholarship will be expected to construct a relevant service or research contribution for the Foundation.

To submit an application for consideration to the LGBTQ Diversity Scholarship, complete:

TC Online Application

Sign in and start your online application.

Scholarship Personal Statement*

In 2-3 pages, double-spaced, address your academic goals, as well as your commitment to research, practice, and competency in issues surrounding the LGBTQ community. NOTE: The Scholarship Personal Statement is in addition to your statement of purpose in the general TC online application process.

TC Scholarship Application

The TC Scholarship application is integrated into your online TC application for admission.

All application materials must be submitted by January 15, 2014.

For questions about the LGBTQ Diversity Scholarship or to submit your Scholarship Personal Statement, please email enrollmentservices@tc.columbia.edu.

Take the next step to ensure that the next generation understands the importance of equality in education. Apply to Teachers College for your graduate-level education.
