Using the maximum amount on the pay scale as a guide, determine the appropriate amount that is not above the maximum pay scale nor above the maximum budgeted amount you are willing to pay for the position.

You can work with your budget administrator to determine this number.

*If the maximum budget amount available is lower than the minimum of the payscale, please consult with your HR Generalist.

STEP 5.3a: Go back to the "Salary Range for Posting" field.

Manually enter the minimum and maximum amounts determined in the previous steps.

NOTE:

If there is a large discrepancy between the maximum budgeted amount and the listed pay scale, please consult with your HR Generalist. This could mean that your budget is not competitive enough to attract candidates with the current market rate.
