- ePAFs annotated by ** available year round.
- Be sure to [Select correct Applicable ePAF](#)
Eligibility Requirements for Reappointment ePAFs

Reappointment ePAFs can only be used if:

- Employee is returning to the same appointment
- Employee job record will be terminated before start date of reappointment
- Paying them from the same index/account combination (operating funded only)
  - Grants funded reappointments can be updated on reappointment ePAF
Reappointment ePAFs – Items to Note

Before the beginning of each semester, HRIS will deliver a listing of employees and their position numbers that are eligible for the upcoming semester’s reappointment ePAF.

If you want to reappoint on a different index than they were previously paid on, you can confirm if employee has ever held that job. If not, must move transaction through PageUp.

You must select the correct reappointment ePAF for applicable account. Each ePAF has specific values defaulted based on the account.

Check with your Director of Academic Administration or HR Representative if you do not see your employee on the Excel spreadsheet and you believe that your employee qualifies for reappointment ePAF.

Your Role as an ePAF Originator

Create ePAFs

Input applicable information (varies based on each ePAF)
- Personnel Start Date
- Personnel End Date
- Salary/Hourly Rate
- Supervisor
- Comments

Track, review and make changes to ePAFs
Visual Guide to Creating Reappointment ePAFs
Log into the TC Portal, then click on the TC Services tab. Click on EPAFS (Electronic Personal Action Forms).
ePAF Home Screen

Electronic Personnel Action Form (EPAFS)

- EPAF Approver Summary
- EPAF Originator Summary
- New EPAF
- EPAF Proxy Records
- Act as a Proxy

RELEASE: 8.12.1.5

© 2019 Ellucian Company L.P. and its affiliates.
Enter the TC ID of the employee in the ID field and press the Tab on your keyboard. *Reminder: You must enter an upper case ‘T’ in the TC ID.*

Query Date should equal appointment effective date.
Select Applicable ePAF

Select applicable Approval Category. (See Reappointment ePAF slide)
Select the Reappointment Job

A listing of active jobs (as of your Query Date) will automatically populate. Click Go.
Select the Reappointment Job

Click All Jobs to see a listing of all jobs that employee has held.
Select the Reappointment Job

Select the appropriate job you wish to reappoint.

Reminder: Employees may hold multiple jobs; make sure to select the correct job. Please refer to the Excel spreadsheet, sent by HRIS, for the correct position.

Click the GO button to navigate to Electronic Personnel Action Form page.
Begin Record Info - Enter Salary, Personnel Date and Supervisor

Enter the appointment salary under the New Value column next to Salary.

For semester based reappointment ePAFs, the Effective Date will be hard coded and align with the Begin Date of the semester.

In the Personnel Date, please enter the Actual Begin Date of the reappointment.

For general reappointments, both the Effective Date and Personnel Date fields will be enterable. Please input Actual Start Date of reappointment.

Enter Supervisor TC ID/UNI in ALL CAPS.
### Labor Distribution Section

- Labor Distribution to only be updated for grant funded reappointments
- **Effective Date** in Labor Distribution can only occur after last paid date
- **Effective Date** will default from Query Date

#### Labor Distribution Change, N00039-01 Part Time Instructor

Define the **Routing Queue** for the EPAF by selecting the **Approval Levels**.

Routing Queue will vary dependent on **Approval Category** type.

You can establish **Default Routing Queues**.

Click on the **magnifying glass** to input approval levels.
Routing Queues Continued...

**Department Level Approval** - select the appropriate Director of Academic Administration for the appointment

**Budget/Grant** – based on funding source, select *Hernandez, John* for grant funded positions and select *Anderson, Joan* for all other funded positions

**Vice Provost’s Office** - select *Torres-Irizarry, Iraida* (Graham, Robert for summer appointments)

**Human Resources Associate** - select *your designated representative*

**HRIS Approval Level** - select *Masbad, Johanna*
Dependent on ePAF reappointment type, you may need to input information in the Comment field. For example, Course Assistant reappointments require the course number to be inputted in the comment section.

Click on the Save and Add New Rows or the Save button to save your comments.
Successfully Saved EPAF

When you have saved your EPAF, you will see a green check mark with the statement “Your change was saved successfully.”

At this point, you may submit, delete or (update) and save your ePAF.
NOT Successfully Saved EPAF

When you have saved your EPAF and there are errors, you will be alerted.

Please read the description of the error, resolve and click **Save** again.
Submit the EPAF

After Updating or Saving the EPAF, you can choose to Submit or Delete the EPAF from one of the icons listed under the Index.

The EPAF will not be submitted until you Submit the EPAF. If the Transaction Status still shows ‘Waiting’ the EPAF has not been submitted.

Remember to only press Submit or Delete once.
When you have successfully submitted your EPAF, you will see a green check mark at the top with the statement “Your transaction has been successfully submitted.”

You can confirm that your EPAF was successfully submitted by reviewing the Transaction Status. It should be in a ‘Pending’ status. If you see an error(s) your transaction did not submit successfully.

A list of common EPAF errors can be found at the end of this guide.
Return for Correction, Errors, Other Changes, and Tracking Existing EPAFs

The next several slides detail common changes to EPAFs, including Return for Correction, errors, and any changes for EPAFs that have already been created and submitted by the originator. EPAF originators can also track the status of their EPAFs through the EPAF portal.
If an approver needs you to make a change on the EPAF, they will return the EPAF for correction. If you receive an email notification that indicates that you have an EPAF in your queue, the EPAF has been returned to you.

Click on **EPAFS (Electronic Personal Action Forms)** on the TC Services page and select the **EPAF Originator Summary** link under **Electronic Personnel Action Form** page to see what is in your queue.
In your **Current** tab, you will see any EPAFs that have been returned to you for correction. You will be able to see that the EPAF has been **Returned for Correction** by checking the **Transaction Status**.

Click the employee’s name or on the **Comments** link to see why the EPAF was returned (do not click on the **Transaction** number).
Return for Correction Continued

Click on the **Comments** link or scroll down to see the reason that that EPAF was returned.

You have the option to **Void** or **Update** the EPAF. Click on **Void** to delete the EPAF and remove it from your queue. Click on **Update** to make changes. If you choose to update, you will be able to alter the **salary**, the **routing queue**, and add new **comments**. You must then **submit** the EPAF.

*Note: The EPAF will remain in your queue until you void or update and resubmit the EPAF.*
Error: User ID(s) must be entered for Routing Queue

If you receive an error that says “User ID(s) must be entered for Routing Queue,” this means you have tried to submit the EPAF without selecting Approval Levels for the EPAF.

Be sure to enter select approval levels (you can establish Default Routing Queues). After reviewing, click submit.
If you receive an error that says “Invalid value for Salary. Value entered must be numeric,” this means you have put a “$” (dollar sign) in the salary section on the EPAF. You cannot put a “$” sign in the Salary New Value – this section should only have the exact amount to be paid (ex. 2000).

Be sure to remove the “$” sign and then, after reviewing, click submit.
Other Errors/Issues

Please disregard any **warning messages** you receive. These will **not** impact your ability to submit the EPAF.

If you continue to have difficulties, please contact your HR Generalist.
Other Changes and Tracking the EPAF

As an EPAF originator, you can track, review the status of, and make changes to your EPAF by returning to the **EPAF Originator Summary** screen and clicking on the **History** tab.

From the **History** tab, an EPAF originator can click on the name of the employee and see where the EPAF is in the **Routing Queue** and any **comments** associated with the EPAF.
Other Changes and Tracking the EPAF Continued

By clicking onto the employees’ name from the History tab, you can see the Transaction Status (when the EPAF has been applied by HRIS the Transaction Status will change from Pending to Approved).

You can also look at the Routing Queue to see who has approved the EPAF.

You may Return the EPAF for Correction or Void it from this screen. Please note that both actions will remove the EPAF from all of the following Approval Level queues.
Establishing Default Routing Queues

Default Routing Queues allow you to automatically populate approvers in your Routing Queue. You must create a default routing queue for each EPAF (i.e. setting up a default routing queue for Course Assistant EPAFs does not automatically set up a routing queue for Course Assistant EPAFs).

To establish Default Routing Queues, click on EPAF Originator Summary from your EPAF Menu.
Establishing Default Routing Queues

Click on Default Routing Queue.
Establishing Default Routing Queues

Select the EPAF you wish to establish **Default Routing Queues** for from the drop down (remember, you must set up default routing queues for each EPAF).

Then click **GO**.
Establishing Default Routing Queues

The first time you enter into the EPAF the routing queues will be blank. Click on the magnifying glass to select your Approval Levels.
Establishing Default Routing Queues

Once you have selected all of your approval levels, select **Save and Add New Rows**. Your routing queues have been saved! You can establish the default routing queues for another EPAF by clicking on the **Approval Category** and selecting a different EPAF.

You can make changes to your Default Routing Queues even after setting them up. Just click on the magnifying glass next to the approval level you would like to change, then click **Save and Add New Rows**.

Frequently Asked Questions

How do I know who I can reappoint?
Before the beginning of each semester, HRIS will release an Excel spreadsheet listing those employees and their position numbers that are eligible for the Course Assistant Reappointment EPAF.

Who can be reappointed?
• Employee is returning to the same appointment
• Employee job record will be terminated before start date of reappointment
• Paying them from the same index/account combination (operating funded only)

I’m certain my employee worked last semester and should be reappointed via EPAF. Why isn’t s/he on the list?
Please check with your Director of Academic Administration or Easmatara Ahmed if you do not see your employee on the Excel spreadsheet and you believe that your employee qualifies for the Course Assistant reappointment EPAF.

My EPAF has been “returned for correction.” What do I do?
You will need to make a correction to your original EPAF and then resubmit the EPAF. Follow the easy steps outlined in the Return for Correction section.

I’m getting an error and can’t submit my EPAF.
Your error could be due to salary, routing queues, or putting an incorrect character in the salary section. See if your error is one of the ones outlined in the Errors section. If you are receiving a different error, please contact Hannah Masbad (jjm2220@tc.edu)
I’m getting a warning message. Do I need to do anything?
No – warning messages are just notifications but will not prevent you from submitting your EPAF. It is best to ignore the warning message. Only be concerned if there is an error.

I want to make a change to my EPAF or see where my EPAF is. Do I need to call someone?
The EPAF portal allows you to make changes to your EPAF or track your EPAF through the TC portal. To make a change (such as add a comment, return the EPAF for correction, or void the EPAF) or to track your EPAF’s progress, see the section on Other Changes and Tracking EPAFs.

What are Default Routing Queues, and how do I set them up?
Default Routing Queues can be used by EPAF originators to automatically populate approvers in your Routing Queue when creating a new EPAF. They save you time because they automatically populate your already established approvers (like budget, financial aid, HRIS, etc.) so you do not have to select those approvers each time you create an EPAF. For an explanation of setting up Default Routing queues, see the section on Establishing Default Routing Queues.

I’m an EPAF approver and need to set up a proxy. How do I do that?
See our section on Establishing Proxies.

I’m a proxy for an EPAF approver. How do I see and approve the EPAFs?
Follow our steps to viewing the EPAFs on the Acting as a Proxy section. You may want to refer to the Approvers Reference Guide for Reappointment EPAFs document for assistance and more information on approving EPAFs.

Is there an EPAF transaction glossary?
Sure is! Click here to see our EPAF glossary.

Who do I contact if I have questions/concerns?
You can contact Hannah Masbad (jjm2220@tc.edu) or Saeed Jan (sj2704@tc.edu) for any and all questions, comments, and concerns.
