

Graduate Exit Survey: 2018

Background and Methods

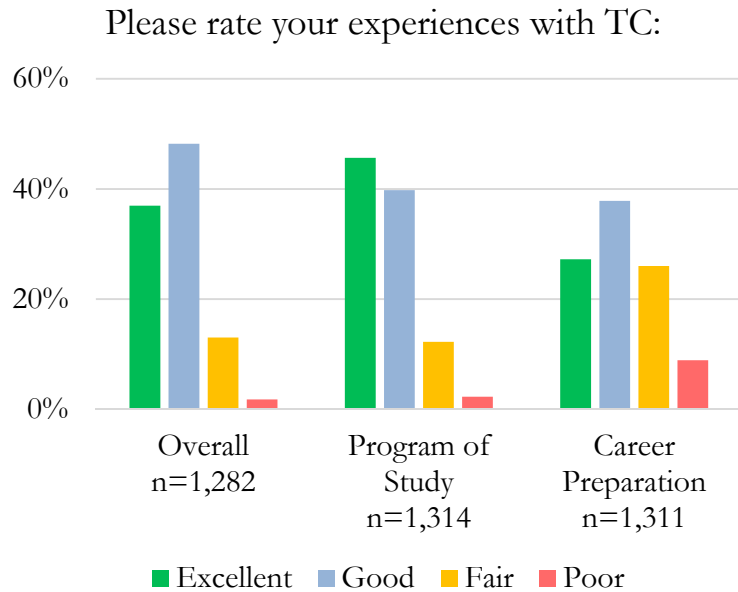

Background

- Students who graduated from TC in 2018 were required to complete a short survey about their post-graduation plans prior to receiving tickets to the May graduation ceremony. Although the majority of survey respondents were May graduates, students who were conferred degrees in October 2017 and February 2018 were also eligible to participate in the commencement ceremony, and thus were given an opportunity to complete this survey.

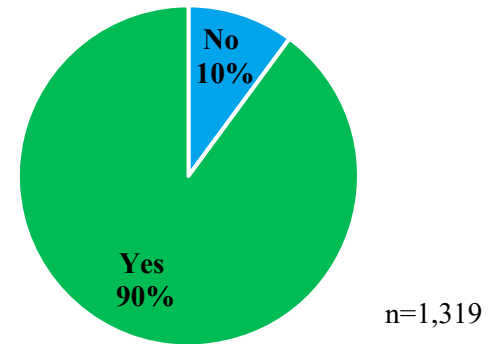

Response Rate

- A total of 1323 graduates responded to the 2018 survey
- Out of the 1,310 students who graduated in the Spring 2018 term, 1046 responded to the survey, resulting in a spring response rate of 80% .

Perspectives of Graduating Students

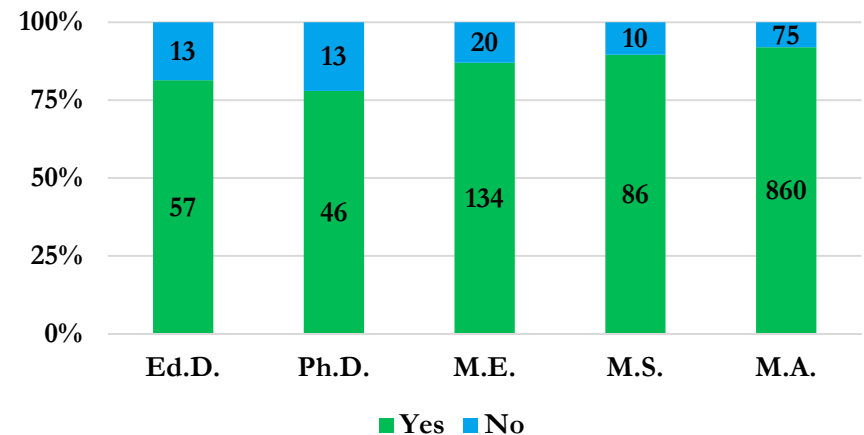

Would you recommend TC to a prospective student?

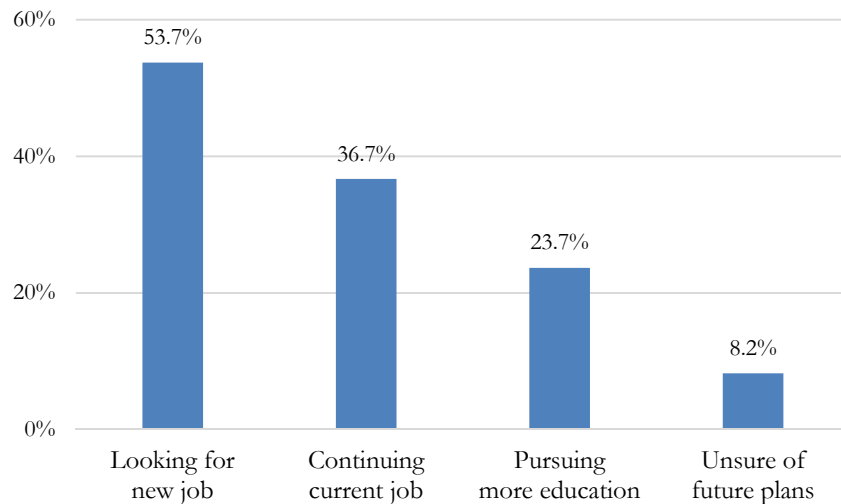

- Respondents were generally positive about their time at TC, with over 80% indicating their overall experience was “Good” or “Excellent”.
- Approximately 90% of survey participants said they would recommend TC to prospective students.

Recommendation by degree level

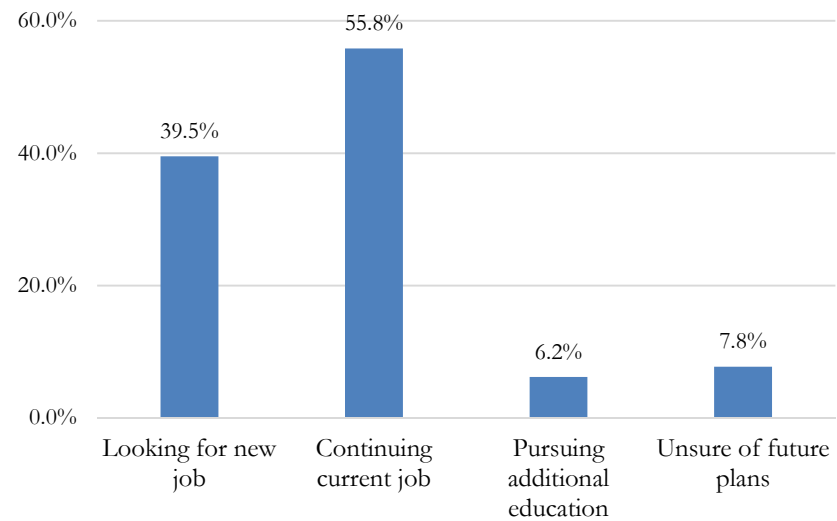

Graduation Plans by Degree Level

Post-graduation Plans for Master's Respondents
(n = 1194)

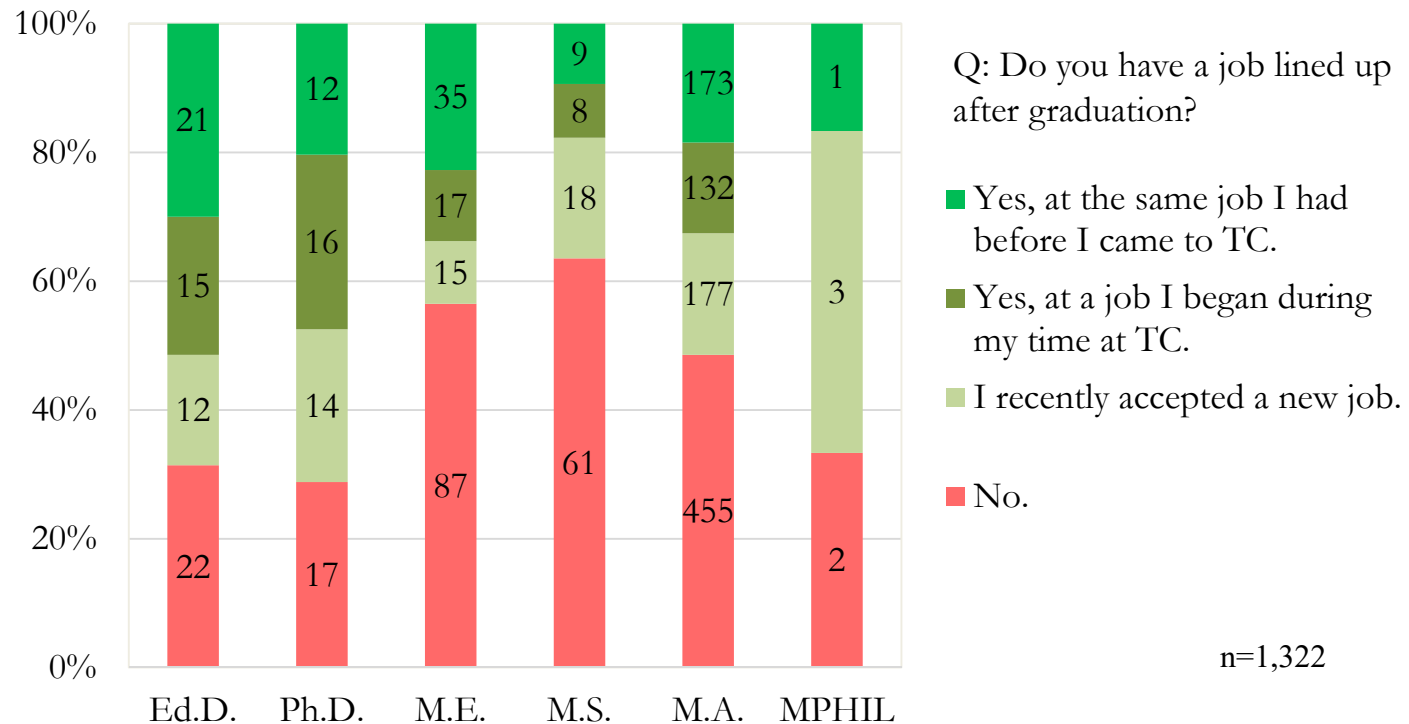

Post-graduation Plans for Doctoral Respondents
(n=129)

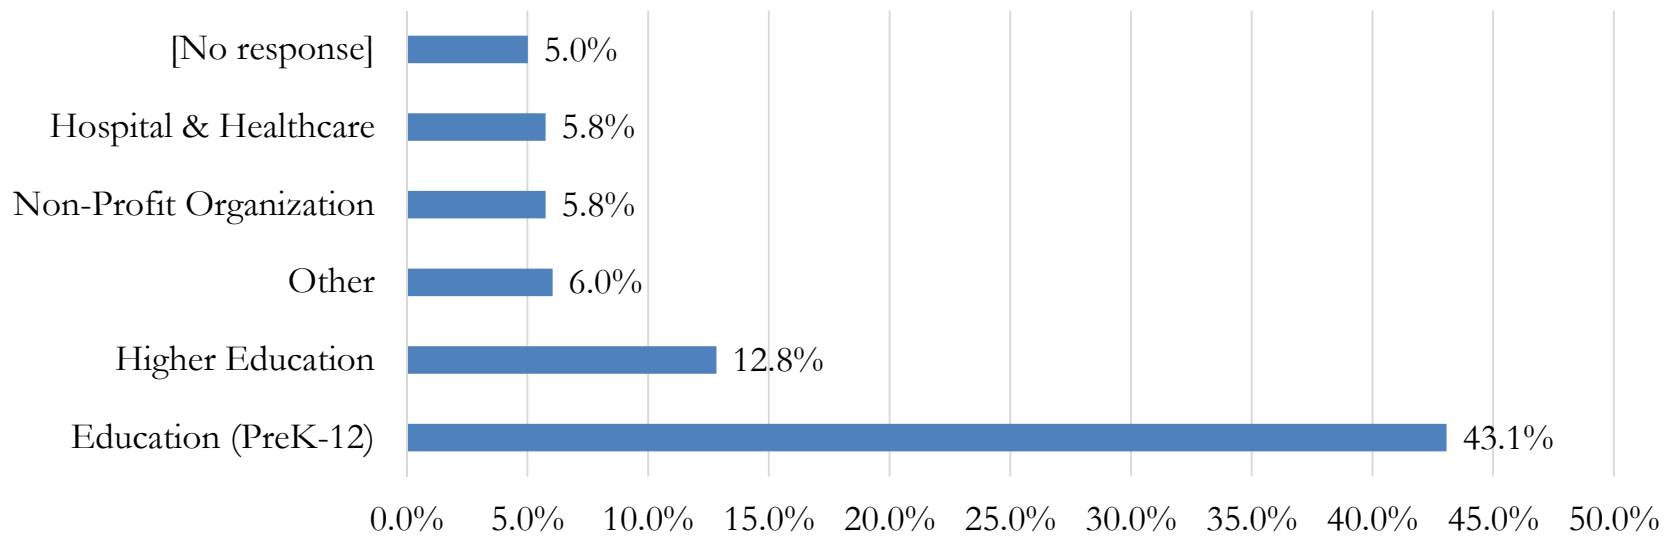

- Among Master’s students, just over half of respondents (54%) indicated that they were looking for a new job. 24% reported that they intended to pursue further education. (please note respondents were able to select multiple post graduate plans.
- The majority of Doctoral survey participants reported that they would be continuing their current job (56%).

Student Employment Status by Degree

- Just over half of respondents (51%) reported that they had a job lined up after graduation.
- Approximately 70% of doctoral students were employed at the time of graduation.

Post-Graduation Employment Industries

n=678

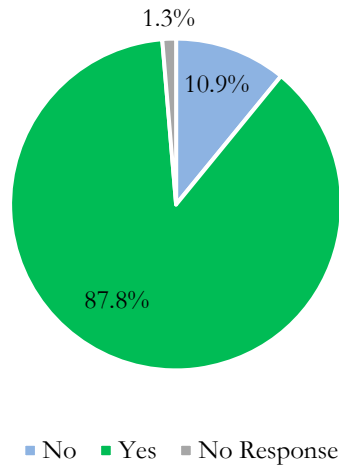

*Note: Industries indicated by fewer than 5% of respondents are not included on this chart

- The industry employing the greatest percentage of graduating respondents was PreK-12 education (43%.)
- 13% of employed participants reported working in higher education.

- The majority of respondents who planned to work internationally planned to work in Asia (60%), particularly China (39%)

Basic Compensation

(among employed graduates)

n=678

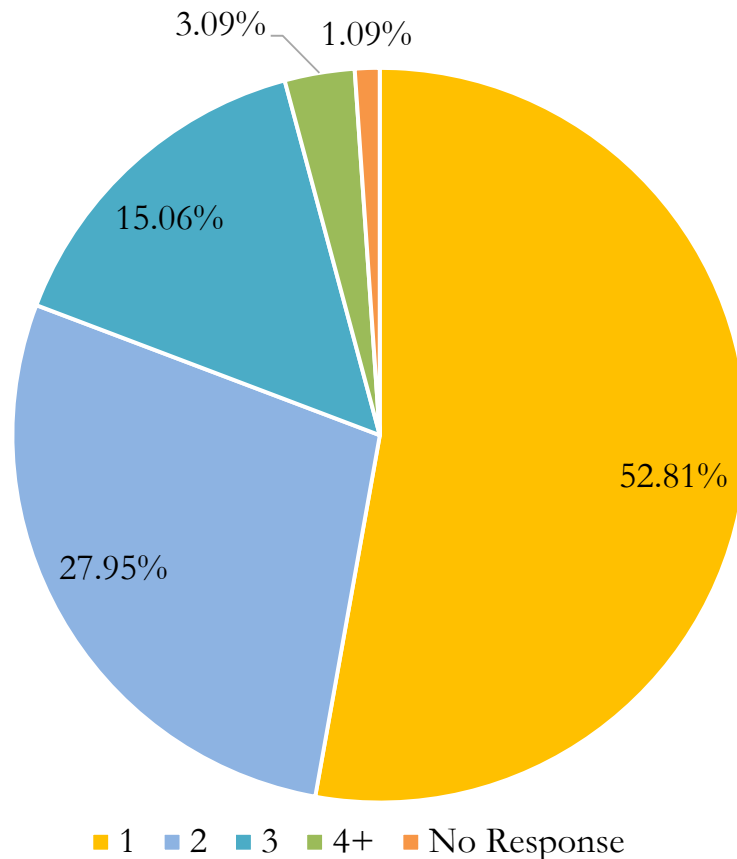

- There is a wide salary range for graduates with post-graduation jobs, with approximately 48% reporting annual earnings of \$55,000 or greater.
- Just under 10% of survey participants reported earning more than \$100,000 each year.

Student Internship Experiences

How many internships did students hold?

(n=551)

- 551 (42%) of respondents indicated having held an internship as a TC student.
- Among survey participants who had held an internship, most held either one (53%) or two (28%).
- 209 respondents (38%) indicated that at least one of their internships had been paid either through stipend or hourly wage.

Student Internship Experiences by Department

- Per department, upwards of a quarter of responding students held at least one internship during their time at TC
- Proportionally, BBS, CCP, and HBS had the most interns, with more than half of respondents per department indicating at least one internship
- Excluding IND, the percentage of responding interns reporting that at least one of their experiences had been paid (by stipend or hourly wage) ranged from 9% (BBS) to 73% (EDP).
