The TESOL and Applied Linguistics Program offers an Ed.D. for students wishing to pursue empirical research in language use, second language acquisition, second language assessment, and TESOL K-12 education. The Ed.D. degree requires 75 points beyond the baccalaureate. Students who did not receive their M.A. or Ed.M. degrees from Teachers College will be expected to have completed all the required courses, or their equivalents, from these TC degree programs; these should be completed as early in the student's program as possible.

Students who received their M.A. from the TESOL and Applied Linguistics programs at Teachers College may transfer 36 credits toward their Ed.D.; students who received their Ed.M. from the TESOL and Applied Linguistics programs at Teachers College may transfer up to 45 credits; and students from other institutions may request to transfer up to 30 points from previous graduate study at an accredited institution. All points transferred must be from coursework relevant to the concentration enrolled in, and any transfer of points must ultimately meet the approval of the student's faculty advisor.

In consultation with the advisor, students will create a coherent program of study by selecting a series of core courses, in-program electives, out-of-program breadth courses, and research methods courses from those listed below that are most relevant to their interests and goals. Please note that core courses at the doctoral level are offered on a rotating basis, typically every third year. Please consult the current course schedule and your advisor to determine which courses are available in a given year.

There are seven types of requirements listed below:

- III. Research Methods and Statistics Courses (6 points minimum)
- IV. TESOL/AL Elective Courses (6 points)
