CONGRATULATIONS!

TCP Summer Intensive 2019

“My TCP experience has been an intersection of the study and the doing of best practice in teaching English language in use.”

The program has been life changing and the best option to reinvent myself. I have loved every aspect of this program with New York City as the backdoor.

The program has challenged me to critically analyze myself as a teacher and as an individual. It has made me uncomfortable in certain instances, however it was all for the sake of growth.

I’m so grateful to have this opportunity working with all of you! Everything is worth it when you see the smile on your student’s face.

- Yu-chen Chan (Mavis)

“Stressful, but rewarding.”

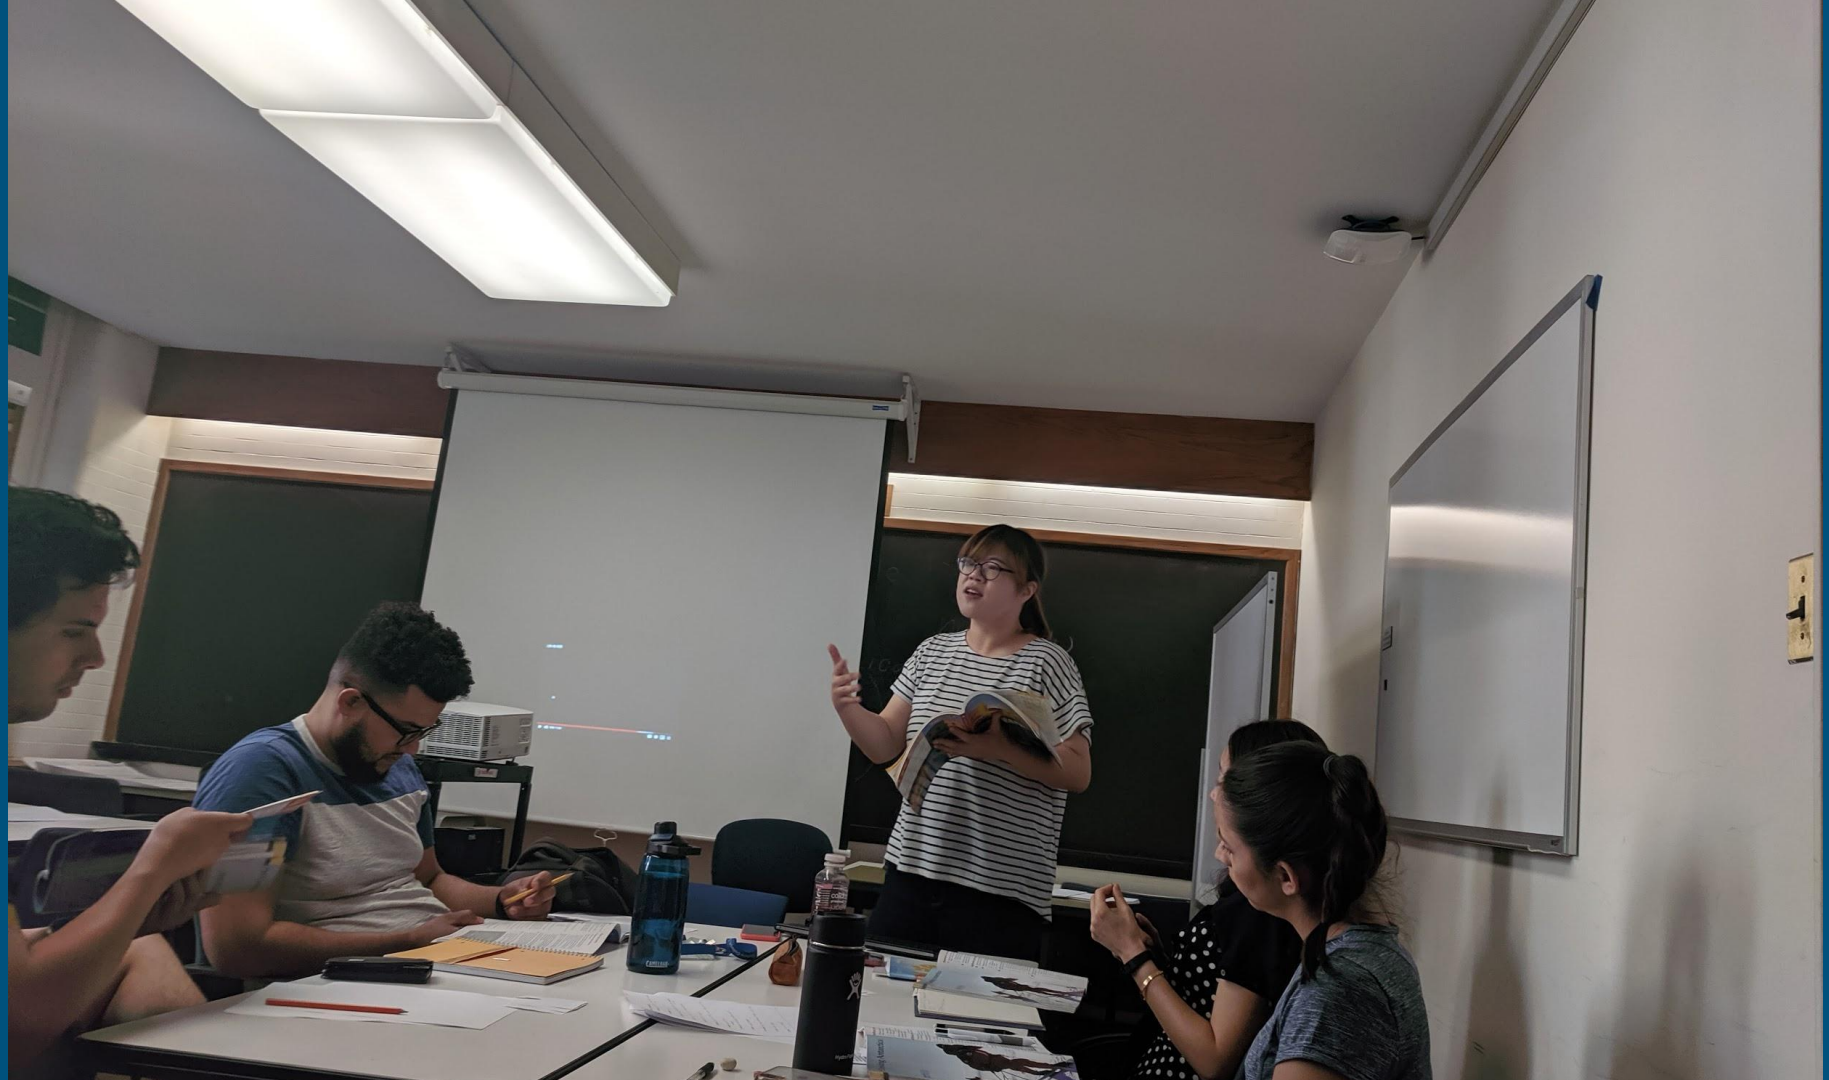

Thank you for helping me to explore new ways of doing so many wonderful things throughout the whole program.
I really appreciate all instructors' dedication to students.
Yuna, you are a super star!
Thank you for everything; Carol, Hee-Jin, Elizabeth, Brian, Kaylee and Natalia!

- Ruya Kanar

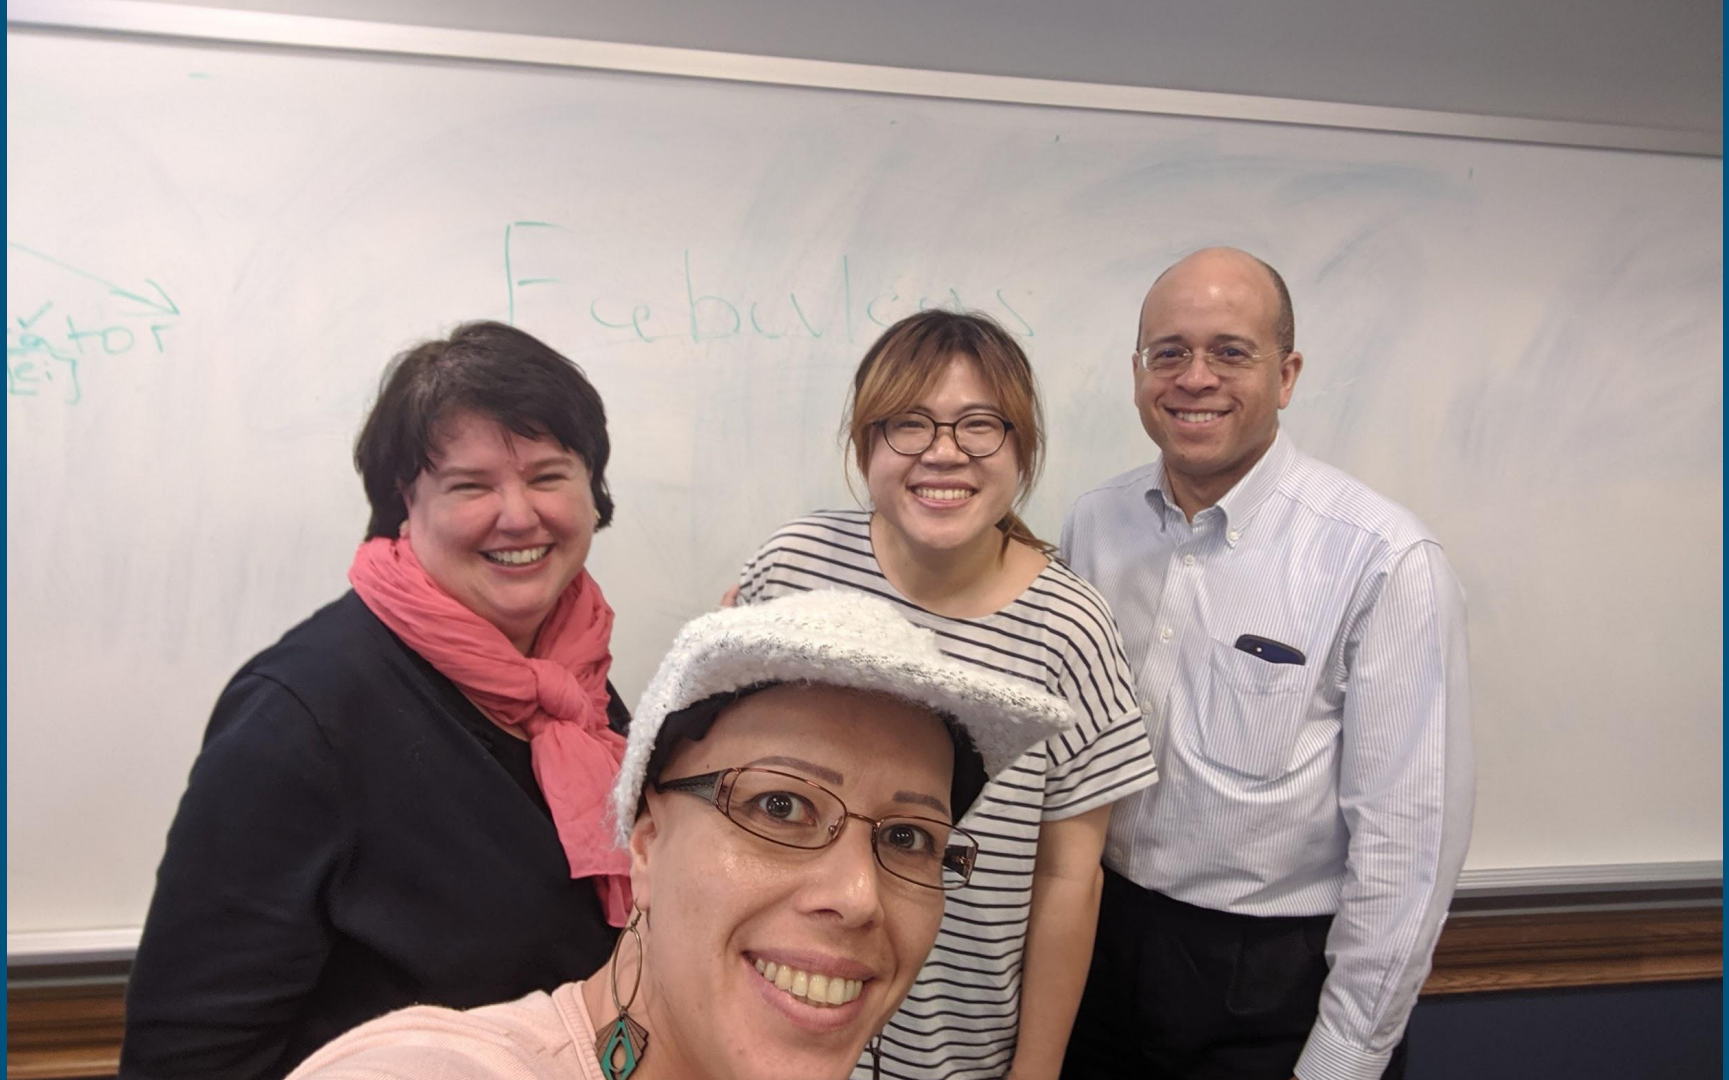

“I enjoyed the practical experience of working with community members. My mentor provided valuable coaching and served as a valuable resource.”

I cannot believe how much I learned... I knew that I would learn material that would help me be a better teacher, but I never dreamed that I would grow in so many ways in just three months.

- Anna Bendiksen

Fabulous

Attending this program was an amazing experience. I learned a lot about teaching English and I had the chance to work with students and teachers that were truly inspiring!

LUCKY!

All my teachers and classmates are my captains. What an honor to be able to learn tons of useful suggestions from you!

- Lin-yi Chen (Susan)

Coming to this program has changed me. Though I could talk hours about the education I have gained, the teachers, students, and peers that I have met have truly opened my mind in ways that I couldn’t even imagine before…

I can’t thank Teachers College Columbia University enough for it.

Virginia Peck-Phillips

Congratulations Future Teachers!

From everyone at TCP, we wish you the best in your future endeavors!
