Comments, feedback, explanation of grade: needs to be double spaced and no separated paragraphs

Very good!

~~Needs to be double spaced~~ ~~and no separated paragraphs~~

① wrote really detailed paragraphs and had very good examples.

② They didn't space their paragraphs properly and did it on the wrong topic

③ - He could write it on the write topic
- space his correctly
- ~~add~~ add ~~per~~ comma to some sentence

Americas Unfortunate Downfalls

In our country of America we have plenty of opportunities available to us. Most of which allow us to complete many of our daily activities. These freedoms allow us to say whatever we feel, go wherever we want, and mainly have actual freedom in our hands. Yet although we have plenty of freedom everything isn't all pitch perfect, as it seems. Although we have pretty simple laws that we have to follow we also have issues that don't predict a long future for the infamous United States. In America dangers such as Global warming, careless government decisions and warfare issues are major things, which can lead to a downfall.

Global warming is one of America's major downfalls, which is caused by our country's constant pollution. Mostly due to our cars and the gas that is being let in the air is causing plenty of pollution. Even though hybrid cars help not spread so much pollution in the air; although some available in the US pollutions issue still aren't being enforced as they should be. This is a definite downfall because it shows no long-lasting future in our country. Not only could this be the end of our country yet the end of plenty of the world as we know it. If we continue to pollute our country: our storms will begin to get even worse and more unusual weather will continue to occur.

Our government's careless decisions are another one Americas downfall; these decisions include the procrastination given towards hurricane Katrina's aftermath. The government didn't react most, feel soon enough towards hurricane Katrina's damage so therefore that shows to be a not only careless yet not responsible decision. If the government continues to make careless decisions this

could make many of the country's citizens unhappy. Therefore unhappy citizens can lead to some unruly behavior or even worse, riots.

Warfare issues are another one of America's downfalls; such issues include: the amount of soldiers being lost each day. It isn't only the fact of soldiers dying each day being the problem but the fact that the American army hasn't even made an effort to leave Iraq. This is a definite downfall major downfall because more and more soldiers are dying each day to this unfortunate epidemic. Not only are soldiers dying in Iraq yet it is unfortunate to know that not even much progress is being made in our quest. This shows how our country's government doesn't even care about the unfortunate warfare issues and how soldiers will just continue to die.

In conclusion not only has America given many opportunities toward its fairly large citizen population, yet it also has plenty of downfalls that seem to have no intention of stopping. This is all one big problem because these downfalls are complete major problems in America at the moment. America government is mainly responsible because of its careless decisions and not enforcing the global warming epidemic. Yet something should be done about this because it doesn't show happy on long future of the US of A.
