Entry #2: What's Important To Me

Getting a good education and becoming someone in life is important because with out an education you can't get a good job to get good money. You need an education to work, get money, live the right way and to do things that interest you. Also if you get tour education you are heading in a good direction and you could be anything you want to be and you are heading towards your goal. Getting an education and becoming someone is important because I made a promise to my dad and family to get my education and be a someone life when I get older. I don't break promises and since it's a promise, it's my goal now.

This became important to me when I noticed kids my age started dropping out of school, selling drugs, starting to get involved in gangs, bringing weapons in school and drinking. I don't want to be known as a person like and also because that's not the way my family taught me. I don't want people calling me a nobody and knowing it's true but people will call me somebody because I am going to get a education and a good job and be independent I want to continue being a role model for ny niece so she could head in the right direction, getting a education, doing the best she can, staying in school, respectful, being honest, have self confidence. I don't want her to be a prostitute, being sexually active, getting involved with gangs, risking her life because a drug deal went bad, going to juvenile and being dead at the age of 15. I value getting my education and becoming someone in life.
