Entry #2: Imagining the Future

In my future I would like to move on from the 9th to 10th grade. Then I would like to move from 10th to 11th and then to 12th. I would like to graduate from School Of The Future on a good note and be remembered for everything I did including basketball. Also my girlfriend that I have right now I would like to stay with her forever [redacted]. Then I would like to go to a good college and play basketball and get good grades so it would be easier for me to play basketball. The thing I would like to major ⁱⁿ is technology. That's what's on my mind right now but I think I would change it later on into my life. In college I would like to play three years of basketball because I think that after your third year you would already have enough experience you need in basketball. Then after that I would like to get married to my girlfriend [redacted] and have as ^{many} much kids ^{as} life gives to us. But I would like to have about five kids or more because I like kids and there fun to have. ^{they're} Other than all the struggles you have to go through raising them, ^{you chose to make that decision.} After I play three years of basketball I would like to be drafted to the NBA and be one of the best players the NBA ever had. During my NBA career I would finish my last year of college so I could get my diploma.

frag.

During my career in the NBA I would like to win a lot of NBA Finals so I could be known as a legend and be elected into the HALL OF FAME. After I retire and during my career I would like to help my kids accomplish what they want to be in life. So me and my wife would be proud. And Esther would be my agent. When I make it to the NBA I want to win the dunk contest in my rookie year. Being the one that made the best dunks you ever seen and make them so creative. This is important to me because I know that I'm good at it and I could be one of the best. It became important to me when I notice I was real good at it. Also when I notice I could make it all the way,

haha!
You missed
one!

and become a basketball legend
This is very focused & has good details

I want to push you to be more ~~the~~ introspective
(that means look deeper into yourself) and write about why all of this is so important to you.
